

Carbon Removal Hook Tool

Part #: AGA-N62-CRH

Problem:

After using the N62 Secondary Air Cleaning Kit, carbon build up inside the exhaust ports still causes' insufficient air flow check engine light.

Solution:

With AGA Tools Carbon Removal Hook Tool, you can clean and remove the carbon build up inside the exhaust ports.

Benefit:

Our inexpensive Carbon Removal Hook Tool is a great alternative to the traditional method of removing cylinder heads to clean carbon build up, saving the technician vast amount of labor hours.
