MISSION

The mission of the Move For Jenn Foundation is to offer grants to sarcoma researchers and those who have suffered the loss of a limb to sarcoma or other affiliated diseases. The Foundation's goal is to raise awareness of the disease through fundraising events, while also helping amputees afford or obtain an activewear prosthetic, allowing them to regain strength and mobility faster, getting them back to the physical activities they enjoyed prior to amputation.

STATISTICS

15-20% of all childhood cancers are sarcomas
13,000 new sarcoma cases are diagnosed each year
5,000 people die each year from sarcoma
