LASTS: Our shoes are made on a plastic foot form that is called a LAST. This form gives the shoe its shape and fit characteristics. Last numbers are randomly assigned and do not refer to fit characteristics. Shoes made on the same last may have a similar, though not identical fit.

HEEL HEIGHTS: Munro heel heights refer to the height of your heel above the ball of your foot, NOT the height of your heel above the ground. Munro heel heights allow you to assess the podiatric impact of our shoes on your feet.

TIPS FOR FINDING A PROPER FIT

• Look for shoe styles that fit the shape and characteristics of your foot.
• Most people’s feet are slightly different sizes; fit the larger foot!

DISCLAIMER: Variations in light during shoe photography may cause natural color discrepancies to occur.
