A better way to share information

According to a 2018 survey of 1,500 U.S. consumers:*

67% of people are concerned with data privacy when using fintech apps

56% of people want to control which financial accounts and types of data that third parties can access

Many consumers have several financial accounts . . .

FINANCIAL ACCOUNTS

banks

lenders

payment cards

. . . and want to share financial data with new financial apps

GET DATA

FINANCIAL APP

Consumer enters credentials for each account

TODAY Most of the financial industry uses complicated, non-interoperable processes to share consumer data

It’s time for an industry standard that promotes:

security

consumer control

innovation

We’ve launched the FDX API to make financial data sharing more simple, inclusive and secure

The FDX API authenticates user, retrieves data

No credentials needed

FINANCIAL APP

GET DATA
