ENVIRONMENTALLY FRIENDLY, PLANTATION GROWN WOOD

COMPUTER CUT FOR ACCURACY

HAND SANDED AND READY TO DECORATE

foundationsdecor.com
sales@foundationsdecor.com
Phone: 385-722-2900

At Foundations Décor, we create wood crafts and decor that are fun, easy, and affordable.

Let us share some of the advantages to using Foundations Décor wood products over traditional wood crafting:

1. Foundations Décor Materials.

- a. We use plantation grown, environmentally friendly Radiata Pine.
- b. Radiata Pine is commonly accepted as the best wood for crafting. It is softer and less brittle, making it lighter and easier to work with.
- c. Plantation grown wood is environmentally friendly. Fast growing plantation trees can sequester and store huge amounts of carbon from the environment.

2. Foundations Décor Designs.

- a. Each design is cut by computer, but still hand drawn to maintain a handmade, or DIY cut look. This means each piece is identical in size and shape.
- b. Extra layers and shapes give the décor depth and dimension. This makes the project easy to craft without requiring a lot of skill. It's great for all ages.
- c. Layers and shapes are strategically designed to cover most spots where papers or paints are joined, giving the project a cleaner finish.

3. Foundations Décor Overall Finish.

- a. Pine pieces are all hand-sanded. You can open any of our products and begin decorating immediately, without the time and mess of sanding the edges. This is a benefit that many crafters and creators know very well, so let us repeat that -- Our products are **PRE-SANDED!!**
- b. MDF layers are laser or CNC cut for smooth, clean, edges.
- c. All products are cleaned during production. No sawdust, or mess of any kind dumping out of the packaging.

4. Foundations Décor Inventory.

- a. No more waiting a month or more to get your wood products shipped. In stock products ship in 24-48 hours. All products are individually packaged, barcoded, and ready for purchase.
- b. The majority of products come with a full color printed card to show an example of the finished product, as well as other matching products.
- c. We round out our products with some amazing crafting tools, simple 80 lb cardstock, and real wood buttons to make the projects fun, fast, easy, and cute.

At Foundations Décor, we literally give you a Foundation for your Décor. You get to create it your way.

This allows every project to be unique. Our wood crafts are easy, fun, and inexpensive. Personalize your décor to fit your style, your motif, your own home décor and colors. Then, be sure to brag about it to your friends!

As our motto says, **"Build Your Style"**.
