PREMIUM COCKTAILS ON DEMAND™

PREMIUM COCKTAILS ON DEMAND

The Bartesian® Duet has perfected the high-end cocktail at home. Easily make premium mixed beverages in seconds without the expense of buying mixes, flavorings and syrups. Just add spirits of choice and one of the 50+* Bartesian cocktail capsules available. The Bartesian will read the unique barcode on the capsule, suggest proper glassware and craft anything from a mocktail to a double strength cocktail.

EASY INTUITIVE MENU SELECTION

The rotary dial makes navigation simple. Once the capsule is inserted, the cocktail is identified via the barcode and the LCD display suggests the glassware and provides strength options. With an LED light that highlights each cocktail as it's crafted to the nonslip bar top, the Bartesian Duet makes every drink an event.

COMPACT AND ELEGANT TWO BOTTLE DESIGN

Two glass bottles allow you to set each port for the spirit of your choice. Choose from any combination of two different varieties: tequila, whiskey, vodka, rum or gin. This practical design keeps the footprint small while keeping the cocktail options endless.

LESS TIME CLEANING MORE TIME ENJOYING

Make a Cosmopolitan right after pouring a Manhattan without worrying about flavors mixing. The automatic rinse minimizes cleaning and keeps cocktails tasting fresh every time. The Bartesian capsules lift out for easy removal and glass bottles are dishwasher safe.

**Bartesian Duet is compatible with cocktails requiring two or less spirits*
