

CHEF ELECTRIC STAINLESS STEEL MEAT GRINDER

AL-12C

DESCRIPTION

This electric meat mincer is a serious piece of commercial kitchen equipment and is a must-have item for every butcher and restaurant.

Built with an all-copper 0.87HP motor, this powerful mincer is designed for heavy-duty processing and can process up to 150 kg of meat in an hour.

Sturdy yet entirely portable, this meat grinder machine would also appeal to amateur sausage-making aficionados.

The internal grinding parts, head, and tray are made completely of premium quality 304-grade stainless steel.

This means that this electric sausage filler meets the most stringent hygiene standards and also ensures trouble-free cleaning.

Commercial grade stainless steel

Advanced design means a cooler and quicker cutting system

The large removable feeding tray
