Double Chamber Vacuum Packing Machine

SKU: DZ-400/2SA

- The products after packing can be prevented from oxidation, going mould, insects or getting damp, thus can be kept fresh for long storage.
- Transparent organic glass lid enables users to well monitor the whole work process.
- The vacuum chamber could be added with inclined stainless steel platen for products with liquid.
- The modern design complements any decor, making it an eye-catching addition to your service area.

MODEL	POWER	WEIGHT	DIMENSION	PUMP CAPACITY
