

CHEF PLANETARY DOUGH MIXER 10QT. CAPACITY

B-10B

DESCRIPTION

Maximize production while taking minimal space away from your kitchen with the Universal 10 qt. planetary mixer.

This 10 qt. a commercial planetary stand mixer makes it easy to whip up a variety of other foods.

Featuring a 3/4 hp motor, this model is great for any kitchen that needs a commercial mixer. This mixer is not made for pizza dough.

A gear-driven transmission is more reliable than a belt-driven transmission. Three speeds let you mix anything from whipped cream to bread dough.

A 10 qt. the bowl makes the B10J great for mixing your best-selling foods.

This mixer comes with a dough hook, flat beater, and wire whip. The bowl and whip are made of type 304 stainless steel which is corrosion and rustproof.

A wire guard makes this mixer extra safe, which is always a priority.
