From Our Family to Yours

For our family, edible gardening is a tradition—a way to connect with each other. It's really the perfect activity. You're never too young or too old to start. And there are no hard and fast rules. Pull a weed. Plant a new veggie variety. Let the dirt run through your fingers. Get your toes wet. Watch the plants grow. Sample your first tomato of the season. It's extremely satisfying and a fun way to get the kids introduced to fresh produce.

We source our vegetables, herbs, and melons from local growers—known for generations of outstanding quality—offering over 150 different varieties, including organics. Check out pages 8-9 for more information on fruit trees, citrus, berries, veggies and herbs. We have just what you need to get your garden started.

Green Acres Nursery & Supply is Sacramento-local and family-owned, with five retail locations to serve you. We are passionate about our customers and we're committed to your gardening success—that's why we strive to provide quality products at a great value, delivered with good, old-fashioned service, each and every day. We hope you'll stop in soon to find something you love for your edible garden. Or visit us online to discover more planting ideas for the season: idiggreenacres.com.

Double
Your Money
— Every Year!

Trees double in value every year. Mature trees can often have an appraised value of \$1,000 to \$10,000.

The Big Benefits of TREES

Health

Trees purify the air we breathe by taking in carbon dioxide and releasing oxygen. A tree's roots help to purify the groundwater we drink.

Value

Healthy, mature trees increase a property's value by an average of 10% and give neighborhoods an established look.

Energy Savings

When properly planted and cared for, shade trees can reduce home energy costs by up to 40%.

Climate Control

Trees cool the air by releasing water vapor and offering shade.

Professional Grade IRRIGATION PRODUCTS

We carry professional-grade irrigation products, and encourage water efficiency for the benefit of plants and our environment. Whether you're laying new irrigation, or retrofitting, we have the parts you need, and the experts to show you what to do.

Keys to manage
WATER EFFICIENCY
and follow
LOCAL WATER AGENCY
guidelines

1

Install Timers

2

Convert to Drip

3

Use Nozzles Efficiently and Accurately

1

Install Timers

Irrigation Timers & Valves

Install timers to simplify following your local watering guidelines. We'll show you how to set your new or existing clock. We offer 6-, 12- and 24-station timers for inside and out.

Hunter® Pro-HC 6 Outdoor
6-station **outdoor** watering timer. Ideal for smaller yards with six or fewer valves.
\$190 | 6 Outdoor

Hunter® Pro-HC 12 Indoor
12-station **indoor** watering timer. Smart phone compatible. Six start times per program.
\$220 | 12 Indoor

Hunter® Pro-HC 12 Outdoor
12-station **outdoor** watering timer. Smart phone compatible. Six start times per program.
\$235 | 12 Outdoor

Irritrol® Jar-Top Valve
Features anti-siphon valve (ASV).
\$18 | ¾" ASV
\$20 | 1" ASV

Forgetting to water on the right days?

Install timers to manage days and times for your irrigation. Take advantage of seasonal settings to avoid watering on rainy days, or underwatering when it's hot.

Watering New Landscapes

Establishing new plants on regional guidelines can be tricky. New plants require more water to establish root growth. As plants mature, transition to watering less often and more deeply.

Rebate
May qualify for Local Rebates and Restriction Exemptions.

2

Convert to Drip

Drip Irrigation Slowly Applies Water To The Root Zone

Drip Line 1 GPH
Use above ground or under mulch. Built-in 1 GPH emitters are spaced 12" apart.
\$27.50 | ½" x 100'

Poly Tubing 1/4"
Use as a feeder line from the drip emitter. Stronger and stiffer than vinyl tubing. For use with ¼" barbed micro-fittings.
\$4 | 1/4" x 50'
\$7.50 | 1/4" x 100'
\$20 | 1/4" x 500'

Poly Tubing 5/8"

30¢ | each

3

Use Nozzles Efficiently

Nozzles That Ensure Accurate, Even Delivery of Water

Hunter® MP Rotators

Hunter's MP Rotator nozzles are the alternative to traditional and pop-up sprinkler heads that spray the landscape. They feature unique, multi-trajectory rotating streams that deliver water at a steady rate. This slower application rate allows water to gently soak in at rates that soils can absorb. Use the MP Rotator to replace the sprinkler head on any conventional spray head body or pop-up sprinkler for water savings of up to 30%. Choose from nozzles that are adjustable for distance and radius.
\$6.75 | each

Rain Bird® U-Series Spray Nozzles

Ideal for lawns, the U-Series nozzles deliver a second stream of water close-in around the sprinkler head, significantly reducing brown spots around the head. Designed for even coverage—reducing run times—using 30% less water. Available in four models.
\$2.15 | each
