## GARDEN TASK CHECKLIST FOR MARCH

- ☐ Watch for snails, slugs and earwigs; set bait and traps as needed.
- ☐ Dethatch and feed lawns. Be sure to check irrigation systems and adjust as the weather warms up.
- ☐ Feed citrus as blooms come on to help set fruit.
- ☐ Last chance to plant summer bulbs.
- ☐ April 22: Celebrate Earth Day!
- ☐ Interplant your veggie garden with flowers to attract beneficial insects.
- ☐ Thin apples, apricots, peaches and pears to 6" apart.
- ☐ April 24: Plant a tree—it's Arbor Day!

# THE BIG BENEFITS OF TREES

## HEALTH

Trees purify the air we breathe by taking in carbon dioxide and releasing oxygen. A tree's roots help to purify the groundwater we drink.

## VALUE

Healthy, mature trees increase a property's value by an average of 10% and give neighborhoods an established look.

## ENERGY SAVINGS

When properly planted and cared for, shade trees can reduce home energy costs by up to 40%.

## CLIMATE CONTROL

Trees cool the air by releasing water vapor and offering shade.

## Best Trees to CLIMB

# Professional-Grade IRRIGATION PRODUCTS

We carry professional-grade irrigation products, and encourage water efficiency for the benefit of plants and our environment. Whether you're laying new irrigation, or retrofitting, we have the parts you need, and the experts to show you what to do.

Keys to manage  
Water Efficiency  
and follow  
Local Water Agency  
guidelines

1

INSTALL TIMERS

2

CONVERT TO DRIP

3

USE NOZZLES EFFICIENTLY & ACCURATELY

**\$125** | 8-Station

**Hunter® Pro-HC 6 Outdoor**  
6-station **outdoor** watering timer. Ideal for smaller yards with six or fewer valves.  
**\$190** | 6-Station Outdoor

### FORGETTING TO WATER ON THE RIGHT DAYS?

Install timers to manage days and times for your irrigation. Take advantage of seasonal settings to avoid watering on rainy days, or underwatering when it's hot.

### WATERING NEW LANDSCAPES

Establishing new plants with regional water guidelines can be tricky. New plants require more water to establish root growth. As plants mature, transition to watering less often and more deeply. Our listed water requirements are for established plants.

Use Nozzles Efficiently

## NOZZLES TO ENSURE ACCURATE, EVEN DELIVERY OF WATER

**Hunter® MP Rotators**  
Hunter's MP Rotator nozzles are the alternative to traditional and pop-up sprinkler heads. Use the MP Rotator to replace the sprinkler head on any conventional spray head body or pop-up sprinkler for water savings of up to 30%. Choose from nozzles that are adjustable for distance and radius.  
**\$6.75** | each

**Rain Bird® U-Series Spray Nozzles**  
Ideal for lawns, the U-Series nozzles deliver a second stream of water close-in around the sprinkler head, significantly reducing brown spots around the head. Designed for even coverage—reducing run times—using 30% less water. Available in four models.  
**\$2.15** | each
