FAIRY GARDEN TERRARIUM

45 min

Supplies

- Globe-shaped Hanging Terrarium with Display Stand
- Fairy Garden Accessory
- GreenAll® Natural & Organic Potting Soil
- 2" Assorted Foliage
- Decorative Pebbles
- Preserved Moss

Directions

1. Start by selecting your favorite fairy accessory.
2. Pick out one or two 2" foliage plants to fit in the small space, with room to grow.
3. Add a layer of sand or gravel to help your terrarium with drainage.
4. Remove any extra soil from the roots of the plants.
5. Add a small amount of fresh potting soil to your terrarium and plant your garden.
6. Find the perfect spot for your fairy!
7. For added texture and color, sprinkle decorative pebbles and add small pieces of moss.

Care

- Water to saturate the soil after planting—avoid standing water.
- Select an indoor spot with indirect, bright light.
- Water when top of soil has dried out, approximately once a week, or more often during very warm periods.
- Fertilize one time per month for best results.

Fairy Garden Fun

To keep your fairy garden fresh and fun, try updating fairy accessories with the seasons. Add a pot of gold for St. Patrick's Day, a butterfly for Pollinator Week, or a small flag to celebrate the Fourth of July.
