RE: Product Compliance with FDA Regulations for Product Safety and Food Contact

To Whom It May Concern:

██████████ certifies that it actively gathers and retains all available compliance documentation from each of its vendors and manufacturers to ensure the products we offer are in accordance with applicable FDA regulations and requirements.

All base resins used to manufacture its products comply with applicable FDA regulations for food contact.

██████████ additionally certifies that its glass jars and bottles are manufactured at an ISO 22000 or equivalent facility certified for the manufacture of glass containers safe for food packaging.

This letter serves only as a brief overview to our team's commitment to compliance and customer satisfaction. For further information on specific items, please refer to the contact information below.

Sincerely,

---
