

K9 MASK

PROTECTING YOUR DOG FROM AIR POLLUTION

*K9 Mask is the "Worlds First" Air Pollution Mask
Designed to Protect Dogs from Toxic Air.*

Dog pollution air filter mask with N95, PM2.5, and activated carbon to purify polluted air from smoke, smog, emissions, chemicals, toxins, mold, allergies, and bacteria.

CHOOSE CLEAN AIR FOR YOUR DOG

Smoke, dust, mold, emissions, ash, chemicals, and allergies are negatively affecting the health of our dogs. K9 Mask protects your dog from toxic air. Climate change is creating a dryer warmer climate resulting in dramatic ecological events including wildfires and dust storms which negatively affect the air we all breathe. Choose clean air for your dog.

Features

Benefits

PM 2.5 filter

Filters out the smallest harmful particles in the air.

N95+ rated filter

Filters up to 95% of non-oil based particulate air matter. Rating standard of CDC (Centers for Diseases Control and Prevention) and NIOSH (National Institute for Occupational Safety and Health).

Activated carbon filter

Bonds with harmful air molecules reducing toxins.

Low breathing resistance

Easy air intake for panting.

Exhale valve

Releases heat and moisture from panting.

*We are committed to protecting your dog from air pollution.
K9 Masks are designed in Austin, Texas, USA. K9Mask.com*
