

## PROPRIETARY NAME AND DOSAGE FORM

# FULFIXER™

## FULVIC ACID

### NATURE'S ALCHEMIST®

Committed to only introducing health game changing supplements, Sebastian Siebert Supplements introduces Fulfixer™ supplementary Fulvic Acid capsules. We've called Fulfixer Fulvic Acid™ - Nature's Alchemist® - because it does indeed facilitate so many biochemical benefits in your body.

Just like an alchemist making mystical positive changes at every end and turn, there is no other single element like it. There is no downside to Fulvic Acid, which is derived from decaying carbohydrate material, and has been a life supporting foundational element for all living creatures, from microbes to mammals since the beginning of time.

The remarkable benefits of Fulvic Acid are not just perception and hearsay, but supported by more than 1,600 peer-reviewed scientific papers, which is why we combined Florish™ Spore Probiotic with Fulvic Acid because of these life and health enhancing benefits. By additional supplementing of Fulvic Acid to your health regimen, you will experience tremendous return of positive results at a cellular level, with no danger of overdosing as Fulvic Acid is completely safe and natural, supporting and enhancing many metabolic processes within your body. This is why Sebastian Siebert Supplements have undertaken to bring this top quality Fulvic Acid to you because we want you to be able to experience the phenomenal health game changing benefits of Fulvic Acid as outlined below.

---

### DOSAGE

3 capsules per day for all ages (preferably in the morning or before mid-afternoon)  
Each capsule contains 150mg Fulvic Acid so 3 capsules per day = 450mg  
Safe and beneficial for all ages

---

### INGREDIENTS (PER DAILY DOSE)

Proprietary Fulvic Acid composite  
40% Water soluble carbon \*  
30% Fulvic Acid \*  
24.5% Ash \*  
3.5% Calcium \*  
2% Moisture \*  
Natural mineral rich powder containing 450mg Fulvic Acid

\* Daily values not established.

\* Research supports Fulvic Acid transports nutrients into cells, cleans & refurbishes cells to optimal efficiency.

Does not contain dairy, wheat, corn, gluten, yeast, rice, salt, sugar or soy.  
No artificial flavours or colourants. Non GMO. Preservative free.  
Shelf temperature stable.

### D 34.13 Other (Health Supplement)

This unregistered medicine has not been evaluated by the SAHPRA for its quality, safety or intended use.

### BENEFITS REPORTED INCLUDE:

- Increased energy
- 50% reduction in recovery time for athletes and bodybuilders
- Elimination of brain fog, increased clarity of thought and increased concentration
- Accelerated healing from injury, accelerated recovery from sickness and ailments
- Improved circulation and many others.

Ironically, most people realise how good that felt on Fulvic Acid when for some reason they stop taking it for a while :)

---

### Here are a few principal benefits and facts supported by the studies:

Fulvic Acid is a transporter, able to carry 70 times its molecular volume of nutrients into your cells. Once it arrives in the cells and unloads the nutrients where they are needed, it then picks up all of the toxins within the cell, and transports 70 times its molecular volume of toxins out of your cell. It feeds and cleans your cells thus supporting and refurbishing them.

According to Dr Dietrich Klinghardt, Fulvic Acid is able to remove glyphosate from the human body. This is huge as glyphosate is the number one cause of increasing leaky gut syndrome.

It's in our fruit and vegetables, introduced courtesy of our farmers using Roundup. Glyphosate actively attacks the metabolic pathway of our microbes, decimating our microbiome resulting in increases in leaky gut, allergies and finally in one or more of the many inflammatory diseases which were once rare and have now become so common.

Fulvic Acid removes heavy metals from the body through a process of chelation.

---

Fulvic Acid restores electrochemical balance to your metabolic system as a donor of protons and acceptor of electrons quenching reactive oxygen species (ROS), sometimes referred to as runaway oxidative stress; a root cause of rapid ageing symptoms, chronic inflammation and inflammatory diseases; thus dramatically reducing inflammation throughout the body.

Fulvic Acid is nature's most powerful electrolyte and according to Dr Daniel Nuzam, who holds 7 doctorates, is both a toxicologist, an osteopath and teaches at 4 medical schools:

- Every 300mg daily dose of Fulvic Acid has  $14 \times 10$  to the power of 21 electrons to donate, that's 21 zeros behind 14, which would look like this:  
1400000000000000000000000 electrons with which to quench ROS resulting in lowered inflammation throughout the body.
- It is the smallest biological molecule, a micro nanoparticle able to penetrate every part and individual component of your body's cells including cleaning out and restoring efficiency of the mitochondria of the cell, which is the energy producing component of all your body's cells. By cleansing and decongesting this enables the mitochondria to produce optimum energy for you.
- It is able to put together broken down components of nutrients and free radicals to reconstitute (reform) nutrients and vitamins. Nothing else does that.
- Fulvic Acid dramatically increases the electrical charge within the cell, keeping them healthy. A characteristic of cancer cells is they have a very low electrical charge.
- Fulvic Acid increases electrical charge to the point that cancer cells can no longer function and subsequently die.
- Fulvic Acid is an anti-cancer, anti-ageing, anti-inflammatory, restorative, rejuvenating and re-energising compound like no other single substance - a universal gift to humanity - truly Nature's Alchemist<sup>®</sup>.

Dr Nuzam has treated over 8,000 patients with Fulvic Acid with only positive results. His wife has taken Fulvic Acid through 4 pregnancies and their kids are very healthy. All his family take Fulvic Acid daily; and all of us can benefit from doing exactly the same.
