

## PRODUCT INFORMATION SHEET

# STAINLESS STEEL BENCHES

## Standard Range or Custom Made

Carlyle Engineering specialise in stainless steel benches. Choose from our standard range of benches or we can custom make to your specifications. Provide us with your required design and dimensions and we will produce a CAD drawing and quotation for your approval.

Forget light duty Chinese imports, Carlyle benches are super strong, designed and built to last, right here in our factory.

- Made from high grade 304 stainless steel
- Heavy gauge tube and stainless steel sheet
- Multiple crossbars to support the bench top and shelves
- Benchtopy sheet supported by 16mm thick melamine board
- Benchtopy securely and permanently attached to backing sheet and bench frame with weld studs and industrial strength adhesive.
- Heavy duty castors (2 lockable )

Height (mm)	Width (mm)	Length (mm)
900	1080	2300
