\* Thermostat guarantees required temperatures with cold water and / or 230 V connection, the actual cycle times extend accordingly. For machine protection the water hardness should not exceed 3°dH, if higher we recommend using an integrated water softener or an external water softener of the product line HYDROLINE PROTECT. To avoid spots and streaks on the wash ware, we recommend the usage of an demineralisation cartridge (HYDROLINE STAR / STAR EXTRA) or a reverse osmosis system HYDROLINE PURE.
