

MATADOR
MEGGINGS

A TO Z ON THE

STRATEGIC DESIGN

BEHIND MATADOR MEGGINGS

No-VPL Crotch Cup aka “Modesty Pad”

- Designed to keep your dude bits demure and prevent unwanted VPL (visible penis line).
- Insert can be removed if needed; stow or show your stuff whenever you want to.
- Soft cup is comfortable and flexible, allowing you to move with total freedom.

Open Pocket

- Designed to hold your phone in an accessible way.
- Spacious pouch and stretchy fabric to accommodate various phone sizes.
- Placement on the outer thigh keeps phone in reach without getting in the way of workouts.

Inner Drawstring

- Designed to cinch in place around the body for extra hold at the hips when you do deadlifts, squats, or backflips.
- Placement on the inside of the waistband keeps it from getting snagged or pulled loose during activity.
- Keeps the overall look smooth and chic, with no messy dangling strings to ruin your meggings fashion.

Zipper Pocket

- Designed to secure your valuables so they don't fall out – or get snatched by a really bold pickpocket.
- Convenient way to hold anything you don't want to lose: keys, credit card, money, etc.
- Matching, minimalist, hidden zipper and pull keep the aesthetic sleek and unified.

T-Shirt/Towel Loop

- Designed to provide a secure place for a shirt or towel while running, working out, or at festivals.
- Strategic placement at the back of the leggings keeps the garment on you but out of the way.
- Ensures that a personal sweat towel is in reach and prevents the tragic loss of sexy gym shirts.

Non-Slip Waistband

- Designed to hug the hips comfortably and keep the pants from slipping down during movement.
- Waistband grip eliminates the fear of crack-ccidents and allows for free midsection movement.
- Made with soft, flexible fabric to prevent pinching, rubbing or chafing.

Sweat-Wicking Performance Fabric

- Designed to let moisture pass through rather than retaining it, keeping the body cool, dry, and chafe-free.
- Fabric is breathable, stretchy, and durable for maximum comfort and garment lifespan.
- Wind and water resistant, providing crucial protection from the elements.

Contact Us
