CUSTOM FITTING YOUR CARRIER

Your carrier comes with a custom fit system located on the back strap that makes it easy to share a carrier among many caregivers for your child. Prior to your first use, have someone help you determine your custom fit number by fastening and adjusting the height of the back strap while the carrier is on you. Then locate the number hidden on the shoulder strap - this is your custom setting. Each time you use the carrier, slide the back strap to your number - *this enables you to put on the carrier all by yourself!*

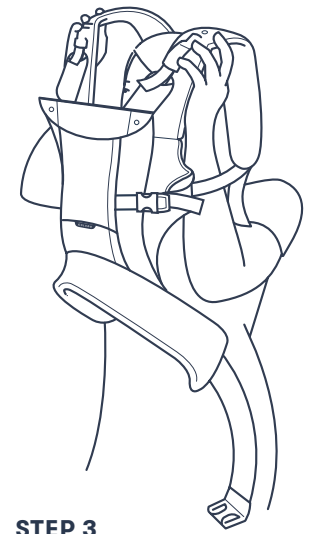

STEP 1

Adjust the back strap to your custom setting (1-5) and width.

STEP 2

Loosen the shoulder straps if necessary.

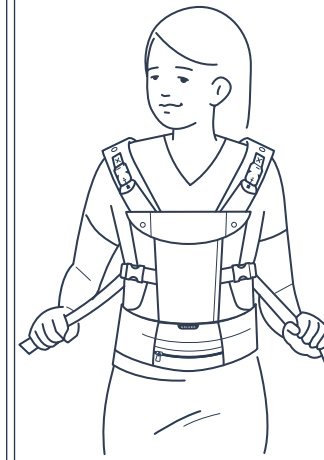

STEP 3

Pull the carrier over your head (like a t-shirt!).

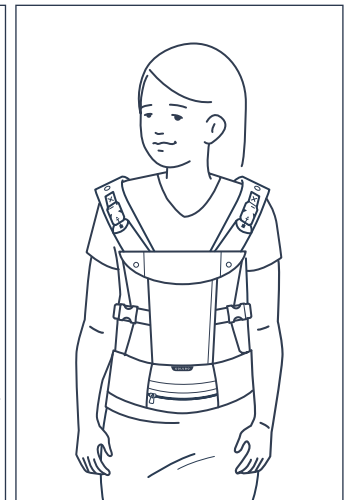

STEP 4

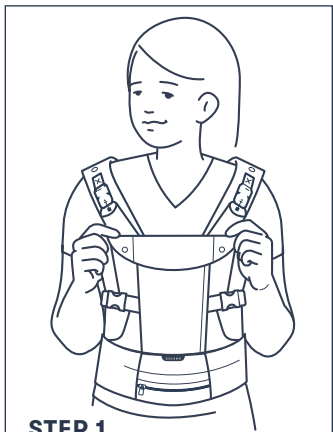

Clip and tighten the waist belt.

STEP 5

Tighten the shoulder straps to your desired tightness.
