WHAT IS YOUR COMPLAINT:

WHAT HAVE YOU DONE TO DIAGNOSE THE ISSUE:

Is the item to be tested a Dynomite Diesel Product: YES / NO

If YES to the above and the item has been purchased within ONE year from today's date, please provide a copy of your original invoice or proof of purchase along with this completed form. In addition please write "WARRANTY" in big bold letters on the outside of the box.

WARRANTY CLAIMS:

First, and foremost we apologize you're having an issue with our product! Rest assured Dynomite will make every effort to process your claim as quick as possible & rectify the issue to your complete satisfaction.

CUSTOMER PAID TESTING & MODIFICATION:

Our injector shop services are on a first come first serve basis & therefore no turnaround time can be promised. That said, common turnaround times for mechanical injectors are 1-4 business days & 4-8 business days for all electronically controlled injectors.

IMPORTANT NOTES:

- 1) Be sure to keep your tracking number on file when shipping us your items.
- 2) Remember to insure your package for the appropriate amount in case your items are lost or damaged during shipping.
- 3) Thoroughly protect each individual injector within the box.
- 4) If possible, ship the injectors or nozzles with the corresponding copper sealing washer installed on the bottom of the injector. Unless otherwise directed please only send the injectors or nozzles to be tested.
