

SAFETY DATA SHEET (SDS)

This product is an edible food grade material and is not classified as dangerous under REACH and GHS Regulation and as such, this product does not require a SDS. This SDS has been created on a voluntary basis and is for informational and guidance purposes only.

This voluntary set-up SDS is based on R 1907/2006/EC (and further amendments) & ANSI Z 400.1-2004

1. IDENTIFICATION

1.1 Product identifier

Di-calcium Phosphate (DCP)

1.1.1 Substances

Substance name:	Di-calcium Phosphate
CAS No.:	7757-93-9
EINECS No.:	231-826-1
REACH Registration No.:	01-2119490064-41-0026

1.1.2 Other means of identification

DCP, Calcium hydrogen phosphate

1.2 Intended use of the product

Animal Feed, fertilizer and technical applications.

1.3 Details of the supplier

Supplier:	Rousselot Peabody	Tel.: 00 + 1 + 978 + 573 + 3755
	227 Washington Street	
	Peabody, MA 01960	

1.4 Emergency telephone number

PLEASE CONTACT ONE OF OUR SALES OFFICES:

For South America and Central America	+54 11 44 89 81 09
For Brazil	+55 (19) 3907 9000
For North America	+1 (888) 455 3556
For France, Southern Europe, Middle East, Africa	+33(0) 545 642 222
For Northern, Central and Eastern Europe, UK, Ireland	+32(0)9 255 18 60
For China	+86 21 6427 7337
For South-East Asia, New-Zealand, Australia	+6(03) 6201 8282
For Japan	+81(03 5643 7701

Reaching Further Together

Rousselot

2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

The product is produced from animal by-products. This product is considered non-hazardous and does not contain hazardous components. The product is used as a feed ingredient.

2.2 Label elements

None required.

2.3 Other hazards

This compound is not hazardous and is derived from animal sources.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Name	Product Identifier	%	GHS Classification
Di-calcium Phosphate	(CAS No.) 7757-93-9	100	Not Applicable

3.1

For additional information on animal derived components, contact one of our sales offices for a Product Information Sheet.

4. FIRST AID MEASURES

4.1 Description of first aid measures

4.1.1 First aid measures general

Product is edible and does not pose a serious risk to health.

4.1.2 First aid measures after inhalation

If inhalation of dusts occur causing coughing or discomfort, go to a fresh air environment until dust settles and throat clears. A dust mask respirator may be used voluntarily to further reduce this risk.

4.1.3 First aid measures after skin contact

Compound may cause dryness with excessive dust exposures on open skin. Wash the exposed area with water and dry skin completely before returning to work. Gloves and or long sleeve clothing can be used to minimize this risk.

4.1.4 First aid measures after eye contact

If dust begins to irritate the eyes, wash your eyes out with clean water for 15 minutes or until discomfort discontinues. If irritation persists, contact emergency personnel as required. Use of wrap around safety glasses or goggles can minimize this risk.

4.1.5 First aid measures after ingestion

Dust exposure should not cause gastrointestinal discomfort. If nausea does occur when working with this compound, do not induce vomiting and contact your local medical professional and provide them with this SDS.

4.1.6 Self-protection of the first aider

No special protective factors are required for first aid response.

4.2 Most important symptoms and effect, both acute and delayed

Symptoms: Reddening of skin or eyes

Effects: Discomfort or irritation

4.3 Identification of any immediate medical attention and special treatment needed

None required

5. FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media: Water spray, carbon dioxide (CO₂); dry chemical. Wear self-contained breathing apparatus. Do not store compound near products / packaging that are incompatible with stated extinguishing media

Unsuitable extinguishing media: Extinguishing media used should be either that stated in section 5.1 or one suitable for where the user is storing the compound.

5.2 Special hazards arising from the substance or mixture

Fire hazard: Substance does not create fire hazard when used as provided

Explosion hazard: Substance does not create explosion hazard when used as provided

Reactivity: Substance is not known to be incompatible with compounds where a hazard may be created

Hazardous combustion products:

5.3 Advice for firefighters: During a fire, carbon monoxide and dioxide as well as nitrogen oxides may be generated

5.4 Additional information: N/A

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Use of product does not require any additional personal protective equipment when used as provided

6.1.1 For non-emergency personnel

Protective equipment: Voluntary use of safety glasses, dermal coverings and breathing apparatus is recommended in large spills or as needed based on spill event

Emergency procedures: N/A

6.1.2 For emergency responders

Protective equipment: Voluntary use of safety glasses, dermal coverings and breathing apparatus is recommended in large spills or as needed based on spill event

Emergency procedures: N/A

6.2 Environmental precautions

No special environmental precautions required

6.3 Methods and material for containment and cleaning up

Spilled materials can be swept up and disposed of as organic waste.

6.3.1 For containment: N/A

6.3.2 For cleaning up: Avoid dust generation during clean-up operations

6.3.3 Other information: N/A

6.4 Reference to other sections: N/A

6.5 Additional information: N/A

7. HANDLING AND STORAGE

7.1 Precautions for safe handling

7.1.1 Protective measures

Advice on safe handling: Prolonged breathing of dusts should be avoided.

Fire preventions: Powdered material may form explosive dust-air mixtures.

Minimize dust generation and accumulation. Use with adequate ventilation.

Aerosol and dust generating preventions: Proper ventilation should be used when handling.

Environmental precautions: Product is bio-degradable and poses no increased environmental risks.

7.1.2 Advice on general occupational hygiene: Voluntary use of safety glasses, dermal coverings and a dust mask will reduce the risk of irritation.

7.2 Conditions for safe storage, including incompatibilities

Store in closed containers, away from heat sources and protected from extremes of temperature, light and humidity. Store separately from any flavour or chemical products

Technical measures and storage conditions: Keep material in a cool dry location

Packaging materials: Product should be stored in original container or in a nonreactive suitable container.

Incompatible products / materials: No incompatibilities known.

7.3 Specific end uses

Not Applicable

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters

Exposure Limits: Not established. It is recommended to use the limit of dust as a reference value: 10 mg/m³ (TWA - 8 hours)

8.2 Exposure controls

8.2.1 Appropriate engineering controls

Proper ventilation should be used when working with this compound.

8.2.2 Personal protective equipment

Eye / face protection: Voluntary use of wrap around safety glasses or goggles may be worn to reduce risk of ocular exposures.

Skin protection: Voluntary use of gloves or long sleeve uniforms can be worn to reduce risk of dermal exposure.

Respiratory protection: Voluntary use of a dust mask can be used to reduce the risk of inhalation.

Thermal hazard protection: Not required

8.2.3 Environmental exposure controls

Compound does not create an environmental hazard.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Physical state: Powder

Appearance: Granular Powder

Colour: White or Cream White

Odour: None

Odour threshold: Unknown

pH: 4.9 – 5.3 (at %20 in water)

Relative evaporation rate: Unknown

Melting point: Unknown

Freezing point: Unknown

Boiling point: Unknown

Flash point: Unknown

Auto-ignition temperature: Unknown

Decomposition temperature: Unknown

Flammability (solid, gas): Not Flammable under normal conditions

Vapour pressure: Unknown

Relative vapour density: Unknown

Relative density (at 20°C): .07 – 0.8 g/cm³

Density: Unknown

Solubility: Unknown

Viscosity, cinematic: Unknown

Viscosity, dynamic: Unknown

Explosive properties: Unknown

Explosive limits: Unknown

Oxidising properties: Unknown

9.2 Other information

Not Applicable

10. STABILITY AND REACTIVITY

10.1 Reactivity: Not known to be chemically reactive with other substances causing a hazardous reaction.

10.2 Chemical stability: Chemical is stable.

10.3 Possibility of hazardous reactions: Unknown

10.4 Conditions to avoid: Unknown

10.5 Incompatible materials: Not known to be incompatible with other substances creating a hazardous reaction.

10.6 Hazardous decomposition products: Carbon dioxide, carbon monoxide, oxides of nitrogen. Powdered material may form explosive dust-air mixtures.

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity: Food grade product and as such not a toxic material.

Skin corrosion / irritation: May cause mild skin irritation.

Eye damage / irritation: Eye exposure may cause mild irritation

Respiratory or skin sensitisation: Compound is not classified as a sensitizer

Germ cell mutagenicity: N/A

Carcinogenicity: Not listed as a carcinogen by ACGIH, IARC, NTP or California prop 65

Reproductive toxicity: Not classified as a teratogen or reproductive toxin

Specific target organ toxicity (single exposure): N/A

Specific target organ toxicity (repeated exposure): N/A

Aspiration hazard: N/A

Symptoms / injuries after inhalation: Irritation
Symptoms / injuries after eye contact: Irritation
Symptoms / injuries after ingestion: None

12. ECOLOGICAL INFORMATION

12.1 Toxicity

Food grade product and as such not classified as toxic.

12.2 Persistence and degradability: N/A

12.3 Bioaccumulative potential: N/A

12.4 Mobility in soil: N/A

12.5 Other adverse effects: N/A

12.6 Other information: N/A

13. DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods: N/A

13.2 Waste disposal recommendations: Wastes can be treated as organic bio-degradable, however local and regional waste management standards should be checked for applicability.

13.3 Additional information: N/A

14. TRANSPORT INFORMATION

UN Number: N/A

UN proper shipping name: Di-calcium Phosphate

(Transport) Hazard class(es): Not regulated as a hazardous material

Hazard labels: None required

Packing group: Not regulated as a hazardous material

Environmental hazards: None

Special precautions for user: If a spill occurs during transport that creates large dust clouds, area should be ventilated and response personnel should wear proper dermal and respirator protection during spill response

Road transport: Not regulated as a hazardous material

Sea transport: Not regulated as a hazardous material

Air transport: Not regulated as a hazardous material

Rail transport: Not regulated as a hazardous material

15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations / legislation specific for the substance or mixture: N/A

15.2 Chemical Safety Assessment: Compound is an organic, stable, food grade product made from animal by-products. The compound is not classified as a hazardous chemical / substance and does not adversely affect the environment or human health as defined in the GHS.

The Edible Quality of this product complies with usual international regulations, European and US regulations regarding edible Gelatin.

16. OTHER INFORMATION

16.1 Identification of changes: N/A

16.2 Training advice: None

16.3 Further information: None

DISCLAIMER OF LIABILITY: The information presented in this SDS was obtained from sources we believe are reliable. However, the information is provided without warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This SDS was prepared and is to be used only for this product. If the product is used as a component in another product, this SDS information may not be applicable. Users of this SDS should consider this data only as a supplement to other information gathered by them and must make independent determinations of suitability and completeness of information from all sources to assure proper use and disposal of these materials and the safety and health of employees and customers and the protection of the environment.
