BRONZE WOOL

MULTI TOOL PAD HOLDER

WHEN USING THE BRONZE WOOL ADAPTER WE RECOMMEND THE FOLLOWING:

GLASS: CAN BE USED WITH OR WITHOUT A CLEANING LIQUID TO CLEAN AND POLISH GLASS SURFACES. EXCELLENT FOR INTERNAL OR EXTERNAL GLASS, MIRRORS, SHOWER STALLS AND OTHER GLASS SURFACES.

METAL: CAN BE USED WITH OR WITHOUT A CLEANING LIQUID, CAN BE USED ON BRASS, RAILINGS, FIXTURES AS WELL AS OTHER DECORATIVE SURFACES. THE BRONZE WOOL REMOVES THE DULL OXIDE LAYER WITHOUT SCRATCHING, RETURNING THE SURFACE TO ITS FORMER GLOSSY GLORY. BRONZE WOOL WORKS EVEN ON SOFT METALS SUCH AS ALUMINIUM OR COPPER.

WOOD: CAN BE USED WITH OR WITHOUT A CLEANING LIQUID, AND CAN BE USED WITH A SPRAY OR WAX POLISH TO PROVIDE THE OPTIMUM SHEEN ON ALL YOUR WOOD SURFACES INCLUDING CABINETS, FURNITURE, BASEBOARDS, WOODWORK & PANELING.

PLASTICS: CAN BE USED WITH OR WITHOUT A CLEANING LIQUID, TO CLEAN AND POLISH SURFACES. BE AWARE OF PROTECTIVE FILMS AND COATINGS, TEST A SMALL PATCH PRIOR TO COMPLETING THE WHOLE CLEAN.

PLEASE NOTE:

BRONZE WOOL POLISHING CLOTHS ARE NOT RECOMMENDED FOR USE ON PAINTED SURFACES, STEEL FRAMES & POWDER COATED STEEL, AND CAN BE PROBLEMATIC IF USED ON LEADED WINDOWS & WINDOWS WITH A PROTECTIVE FILM/ COATING. IF YOU ARE UNSURE, TESTING THE PAD ON A SMALL AREA PRIOR TO COMPLETING THE CLEAN IS ADVISED. IF USING THE PAD FOR MULTIPLE PROJECTS, WE RECOMMEND USING A SPECIFIC PAD FOR GLASS & OTHER MATERIALS, AND NOT USING A SINGLE PAD INTERCHANGEABLY BETWEEN GLASS, METALS & WOODS.
