#### The KLONDIKE Story

The company started in 1987 as a chemical and lubricants supplier to the OEM Dealer Networks and professional service and repair facilities throughout Canada. Known by a demanding customer base for our dedication to quality and outstanding service, we earned a great amount of trust and confidence by providing solutions to a broad range of industries. This led to a rapid level of growth that would be exemplary in today's marketplace.

Throughout the late 80's and early 90's we maintained a high level of service while meeting the ever-expanding technical requirements in the chemical and lubrication industry. As distribution requirements increased throughout the late 90's and early 2000's, we expanded our warehousing and delivery capacity to answer the wide-ranging and specialized needs of the marketplace throughout Canada.

In 2009 we used this knowledge and expertise to capitalize on a once in a lifetime challenge known as the 'Mountain Pine Beetle Epidemic'. This catastrophe was wide ranging in its destruction and infected many forests along the west coast of Canada. Millions of hectares of infected trees had to be removed quickly throughout the mountainous terrain, one of the most extreme climates in this region of the world. Contractors tasked with the harvest were faced with a host of unexpected problems. In addition to extreme weather conditions this softwood species was dead and extremely dry. Continuously warping bars and chains due to lack of moisture and extraordinarily high frictional temperatures made for a difficult and costly cutting operation. Traditional chain oil blends were not up to the rigorous needs of the immense operation at hand. The advanced viscosity requirements formulated by our technical team and other global technical experts gave birth to KLONDIKE – BRAVING THE FORCE OF MOVEMENT.

# KLONDIKE HD SYN DRIVE meets Allison TES-668 Standard for Automatic Transmission Fluids

Our HD SYN DRIVE Full Synthetic Transmission Fluid has been licensed and approved by Allison Transmission for TES-668. This is great news as Allison Transmissions are used by virtually all major OEM brands.

This next generation transmission fluid supersedes previous generation specifications and is recommended for use in Allison 1000 Series<sup>™</sup>, 2000 Series<sup>™</sup>, 3000 Series<sup>™</sup>, 4000 Series<sup>™</sup> H 40/50 EP<sup>™</sup> and eGen Flex<sup>™</sup> Series transmission products.

# **FOOD-GRADE** Lubricants

# Lubricants designed specifically for use in food processing equipment.

#### KLONDIKE's FOOD-GRADE products are registered with NSF for use in the food and beverage industry and carry the H1 credentials for incidental food contact.

The NSF mark confirms that products meet all requirements and demonstrates KLONDIKE's commitment to quality, compliance, and safety.

A high-quality H1 lubricant minimizes the risk of contamination and ensures the longevity and performance of equipment.

FOOD-GRADE Lubricants are listed on page 59

# Antifreeze/Coolant Range of Products! Concentrate and 50/50 Ready to Use

#### Find your match with KLONDIKE's comprehensive line up:

- Green Universal designed for automotive and heavy-duty diesel engines.
- Yellow Automotive OAT ELC extended life coolant designed for automotive and light duty trucks.
- Red Heavy Duty NOAT ELC extended life coolant designed for heavy duty diesel engines demanding extended performance.
- Gold All Engines NF OAT ELC highly advanced extended life coolant designed for All heavy and light duty engines regardless of year, make, model, or original antifreeze color.

#### EASY ON YOUR WALLET. EASY ON YOUR BACK. Save EHC fees with KLONDIKE EZE-KEG.

A range of Euro Automotive products are available in our metal 52 L EZE-KEG. The metal kegs work on our EZE-KEG racks and can be interchanged with our existing plastic EZE-KEGS.

KLONDIKE heavy duty engine oils are formulated to assist in maximizing engine life and minimizing wear. Our advanced processes and technologies enable KLONDIKE heavy duty motor oils to strike a balance between durability, emission control, optimized drain intervals, and improved efficiencies for your equipment.

KLONDIKE API CK-4 heavy duty engine oils are a direct successor and replacement for API CJ-4 fluid technology. API CK-4 fluids are fully backwards compatible and supersede CJ-4 and previous service categories. KLONDIKE API CK-4 fluids offer improvements in fuel efficiency, oxidation resistance, viscosity shear stability, and aeration control over the previous fluid technologies. KLONDIKE heavy duty oils have been approved by world's leading manufacturers\*, including:

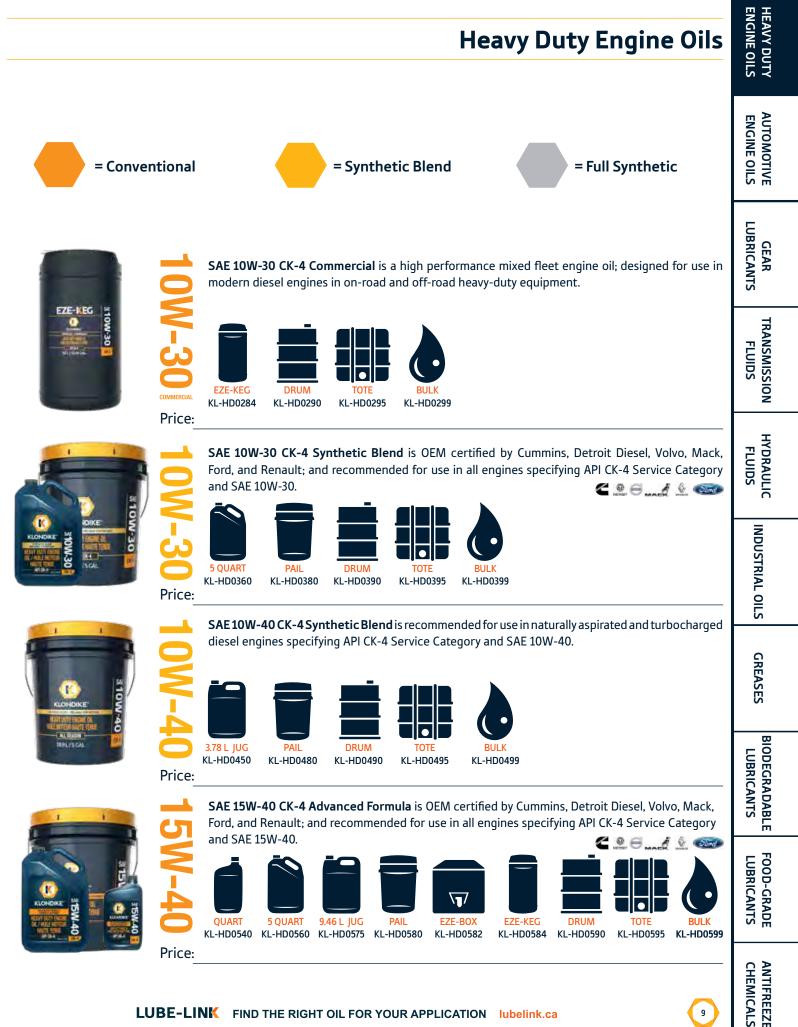

BULK

KLONDIKE advanced technology automotive engine oils are formulated for optimum efficiency and are designed for use in modern, highly fuel efficient engines that are subject to increasing levels of stress such as stop-and-go city driving, frequent short trips, extreme high and low operating temperatures, extended idling and towing. KLONDIKE synthetic blend and full synthetic motor oils for passenger cars offer superior oxidation stability, extra protection against heavy load conditions, additional high temperature protection, and better cold weather properties than conventional motor oils. Additionally, KLONDIKE premium quality automotive engine oils are formulated under the newest technology and are certified under the latest ILSAC API SN PLUS and API SP GF-6 specifications. This technology is also good for use in the prior ILSAC GF-5 or API SM specifications.

Tough operating conditions are no match for KLONDIKE gear oils. They are specially formulated for maximum protection, durability, and efficiency no matter what climate or conditions are prevalent. Only the finest technology available is used in manufacturing our premium synthetic gear lubricants. KLONDIKE robust formulations are designed for gears and differentials that place rigorous demands on fluid technology and require extreme temperature and pressure protection. Driveline components in today's automotive and heavy duty vehicles have become increasingly stressed by increased engine output, higher operating temperatures, and extended service intervals. KLONDIKE's advanced gear oil technology protects against severe wear while balancing fluid durability in heavy load conditions, including extended drain intervals when applicable.

KLONDIKE transmission fluids are formulated for use in a full range of automatic transmissions and provide premium shifting characteristics. This extensive line of automatic transmission fluids offers smooth yet responsive shifting, long service life, and outstanding fuel efficiency. KLONDIKE transmission oils are engineered to provide improved performance, extended transmission life, as well as premium flow characteristics at very low temperatures and protection against oxidation, varnish and sludge at high temperatures.

KLONDIKE anti-wear **hydraulic** fluids are designed to operate in the most extreme conditions. Today, operating conditions require greater precision and pressure than ever before. While advanced systems do more work and are more responsive, they are also more vulnerable to wear and deposit formation when operated at higher temperatures and pressures. Highly tested KLONDIKE hydraulic lubricants are specially formulated with the finest base oils and additive systems that deliver unrivaled performance and protection.

The KLONDIKE family of industrial and functional fluids is formulated for exceptional performance and reliability using world-class technologies that have been trusted and proven by industry professionals for many years and is relied on by industry users all year round. Our bar and chain oil is of the highest quality and operates in extreme climatic - high or low temperature - conditions. It offers unsurpassed durability and performance for equipment operating in high heat conditions, and performs flawlessly in the logging and saw mill industries that require the most robust and durable lubricant formulations in order to maximize efficiency and productivity.

The KLONDIKE family of biodegradable lubricants are designed as an environmentally safer alternative to traditional industrial lubricants. With the rise in natural resource based industries being encouraged to monitor the impact and sustainability of the work completed in environmentally sensitive areas, the need for more environmentally safe and efficient products has increased. Our line of biodegradable lubricants are formulated using non-toxic chemistry with no heavy metals to contaminate water or soil, which will greatly reduce the immediate and longterm impact of the fluids on the environment in the event of an oil leak or spill. The KLONDIKE line of biodegradable lubricants are highly stable for smooth operational efficiency, and highly resistant to oxidation and deposit formation for long service life, while providing a high level of environmental conservation and protection.

The KLONDIKE product category of chemicals is designed to maximize productivity while also offering superior user benefits.

KLONDIKE Rust Blast is a professional strength, fast acting, penetrating lubricant. Powerful penetrating action blasts through rust and corrosion to loosen and lubricate stuck parts.

KLONDIKE Grease Blast is a truly versatile and certified biodegradable all-in-one degreaser. Simply alter the dilutions and it becomes a muscled water based engine degreaser, white wall tire cleaner, vinyl top cleaner, leather, plastic and vinyl cleaner, and a concrete floor degreaser. KLONDIKE Brake Blast is an advanced formulation of highly technical solvents that once applied will quickly dissolve and remove grease, oil, brake fluid, road grime, and dirt. This non-chlorinated, low odor formula dries fast, leaves no residue, and is safe for use on most materials including plastics.

# **Industry Applications**

## AGRICULTURE

KLONDIKE agriculture fluids are formulated to ensure maximum productivity in a critically time sensitive seasonal industry. Proper lubrication goes beyond protection, and our lubricants are created with premium base oils and inhibitors to disperse soot and reduce sludge. The KLONDIKE engine oils provide durability and reliability, and consistent performance during the long, demanding hours of the harvest season.

## AUTOMOTIVE

The KLONDIKE product lines of automotive engine oils and automatic transmission fluids employ advanced formulations to meet and exceed the world's leading automakers requirements. Our cutting-edge synthetic blend and full synthetic formulas are engineered to provide maximum protection and optimum performance in all driving conditions. Certified by GM's dexos1°, GM's DEXRON°-VI, Ford's MERCON° LV.

## **CONSTRUCTION & EXPLORATION**

Understanding the rigorous challenges and the nohassle requirements placed on construction and exploration equipment, KLONDIKE has engineered robust lubricants for environments with moisture and dirt contamination, heavy loads, extended maintenance intervals and other harsh conditions. The KLONDIKE Arctic Performance Technology line ensures maximum protection with smooth and reliable performance in extreme cold weather conditions.

## FORESTRY

With relentless work schedules, environmental challenges, competitive pricing and harsh climatic conditions faced by the forestry industry, we are continually enhancing the KLONDIKE range of oils and lubricants to ensure harvesting, transportation and wood-production is as efficient and cost effective as possible. Our line of tough greases is blended for maximum lubrication and adhesion with minimum flyoff, making them ideal for milling operations.

# **Industry Applications**

## **INDUSTRIAL**

KLONDIKE has a vast range of premium industrial lubricants from conventional hydraulic fluids through to premium environmentally friendly oils. We provide solutions that increase uptime, productivity, and efficiency. The KLONDIKE lubricants can be utilized to extend maintenance intervals and prolong the life of your equipment. Our technical professionals will identify your needs and provide solutions for faster production and greater cost efficiency.

## MARINE

The KLONDIKE range of high quality marine oils is tailored for reliability, stringent safety standards and strict environmental requirements as specified by marine authorities. Engineered for durability and maximum protection, whether it is salt or fresh water, these hardworking lubricants will ensure that your marine vessels or pleasure craft run smoothly and efficiently. Certified by the National Marine Manufacturers Association -NMMA<sup>®</sup>.

## MINING

We offer a complete selection of oils and lubricants tailored to the requirements of all types of mining operations from equipment to process lubrication. The KLONDIKE line of heavy duty engine oils will deliver optimum efficiency and performance to every application and specification found in the wide range of machinery used in mining. From surface to underground mining our oils and greases are formulated to deliver outstanding equipment protection.

## **ON-ROAD HEAVY DUTY**

Our heavy duty engine oils are formulated to protect your investment in your equipment and maximize the life of your engine. KLONDIKE heavy duty engine oils provide high performance in extreme temperatures, heavy-load requirements and challenging terrain. They are designed to meet the difficult challenge of effectively balancing durability, extended drain intervals, and emission control. Certified by Cummins, Detroit Diesel, Volvo, Mack, Ford and Renault.

# **KLONDIKE Distribution Facilities**

Dedicated to meeting the delivery needs of our customers, we have warehousing and distribution centres that are strategically located throughout Canada to cater to the time-sensitive nature of your industry.

## **BRITISH COLUMBIA**

## Serving BC

1 Burbidge Street Coquitlam, BC, V3K 7B2 A330, 20161 86th Avenue Langley, BC V2Y 2C1

## ALBERTA

Serving Northern BC, AB, SK, YT and NT 4819 – 90 A Ave Edmonton, AB T6B 2Y3

## MANITOBA

Serving MB, Northwestern ON and NU 1510 Wall Street NW Winnipeg, MB R3G 2T3

## **ONTARIO**

Serving ON and QC 370 Henry Street Brantford ON N3S 7W2

## QUEBEC

Serving Eastern Canada 390 Notre-Dame Street West Montreal, QC H2Y 1T9

NEW BRUNSWICK Serving the Atlantic Provinces 350 English Dr Moncton, NB E1E 3Y9

Spring/Summer 2023
