

Pressure Washer

HS2B

CHARACTERISTICS

- STARCCO pressure washer is designed for heavy duty.
- Made with the best quality components and technology.
- UDOR brand pump made in Italy.
- Triplex pistons strong and reliable.
- Heavy duty flat base high pressure Seals.
- High resistance alloy in bronze and aluminum rod.
- High efficiency 1750 RPM electric motor.
- Thermal protection, for continuous use of the equipment.
- Direct coupling from the bell coupling to the motor.
- Water Control BYPASS.

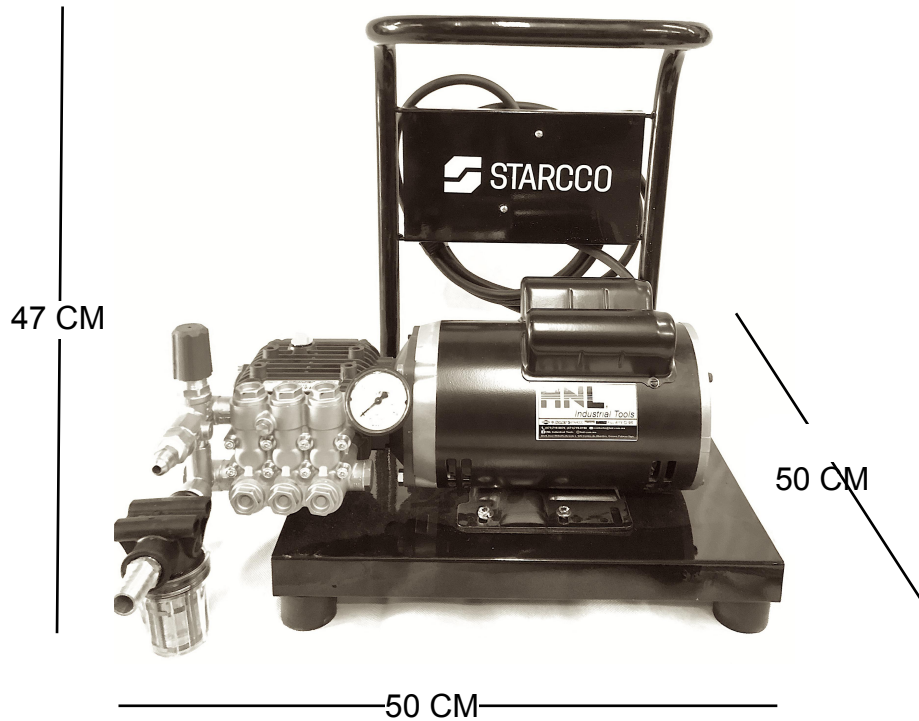

AREAS OF USAGE

- Designed for industrial, agricultural, food, construction, car wash, among many other industries.

COMPONENTS

- High pressure 10 m hose, with heavy duty connections.
- Metal chassis with **handle** for easy transportation.
- Pressure gauge.
- Variable angle nozzle

Pressure Washer

SPECIFICATION	HS2B		
Pump type	PND2.0/2.0Z		
Max. pressure	1500 PSI		
Flowrate	15 lt/min		
Max. fluid temp.	0°-60° C		
Power	2 HP		
Voltage	110V / 1F / 60 HZ		
Dimensions	H:47cm /W:50cm /L:50 cm		

*Also with pump type: LWS 2015
