

Flo-Log® - Flo-Pipe®

High strength & high flow for wall drainage

The Atlantis Flo-Pipe® & Flo-Log® sub surface pipes are suitable for situations that require rapid drainage, high flow and strong compressive strength.

Standard Size Drainage Logs

The logs are pre wrapped in quality geo-textile and are available in various sizes. The logs are two metres in length and can be connected together to form any length.

Applications

- Sports field broad acre drainage
- Golf courses broad acre drainage
- Road edge drains
- Dewatering Wet Areas
- Retaining wall drainage collection

Be the change. Be Atlantis

Manufacturing, Environment & Sustainability.

Atlantis products are manufactured in facilities located in Australia, Asia, USA, Europe and South America. High quality resins are sourced from accredited recycled material suppliers providing Atlantis with certified recycled polypropylene that is free from chemical contaminants.

The factories producing Atlantis products are committed to processes that have a minimal impact on the environment and are compliant with quality certification ISO 9001:2008.

Drainage System

Flo-Cell®

The original Drainage Cell!

The Atlantis Flo-Cell® range is a versatile product suitable for many applications including the drainage of sports fields, civil works, retaining walls and landscaping applications. The Flo-Cell® is also ideally suited for WSUD (Water Sensitive Urban Design) applications and provides an ideal use for increasing the permeability of ground areas which reduces overland flow and facilitates groundwater recharge.

Flo-Cell® 20mm

Part Number - 80020
Size - 20 x 406 x 620mm
Flow Rate - 0.65 L/m @ 1% gradient
Pieces per m² - 3.97

Flo-Cell® 30mm

Part Number - 80330
Size - 30 x 575 x 575mm
Flow Rate - 1.4 L/m @ 1% gradient
Pieces per m² - 3

Flo-Cell® 50mm

Part Number - 80050
Size - 50 x 575 x 575mm
Flow Rate - 2.56 L/m @ 1% gradient
Pieces per m² - 3

Flo-Wall®

High strength & high flow for wall drainage

The Flo-wall® range consists of prefabricated products wrapped in a high quality Italian geotextile, with hydrophilic properties that guarantee effective drainage that does not require stress to function. Each Flo-wall® has a small excess of geotextile that allows the overlapping of the panels, in this way the connection between each panel can be perfectly sealed.

Applications

- Retaining walls
- Foundation walls
- Basements
- Bridge abutments and abutments
- Civil works
- Tunnels
