

Green Wall Facade

Create stunning dense vegetated facades and vertical gardens for your Eco Home or Sustainable commercial building with the Atlantis Gro Wall Facade system. With easy integrated installment onto existing building and new architectural designs the Gro Wall Facade system replaces conventional Eco Sustainable House lattices.

The durable and ease of installation makes the Gro Wall Facade an ideal choice for vertical greenery, privacy screening or a design feature for Architects, Landscape Designers and the Home owner. Gro Wall Facade / Vertical Gardens make the perfect product for your Eco Home or Sustainable Commercial Building.
