

MINIMATCH

High CRI+ LED rechargeable work light

Handheld rechargeable work light with excellent colour rendering properties, for perfect colour match.

With its strong and basic functionality, the new handheld MINIMATCH provides up to 200 lumen and features 2 COLOUR LIGHT (warm and cold), especially useful for bright and dark coloured surfaces.

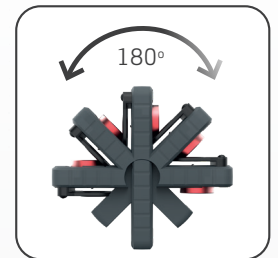

Easy to carry in the pocket or in the work belt with the built-in clip, ready at hand for quality check between prep-zone operations. Supplied with a two-step operating option.

Place the lamp anywhere you want during inspection with the turnable sturdy hook or the strong built-in magnet. The flexible lamp head tilts up to 180 degrees.

Durable construction, dust as well as waterproof, IP65. Supplied with solvent resistant glass lens.

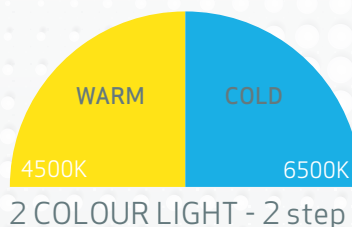

Battery indicator at front shows when the battery must be recharged.

As optional accessory, the SCANGRIP DIFFUSER SMALL 03.5778 minimizes reflections and hard shadows from the light. It is simply mounted directly on top of the lens and especially applicable for checking high spots while coating, as well on car dent repair and detecting dust nibs on painting.
