

ATC: **A**dvanced **T**hermal **C**ontrol

ATC technology is indispensable on thin surfaces and material extremely sensitive to deformations caused by the high temperatures reached during welding. Thanks to ATC, excellent results are easily obtained due to advanced arc control.

ADVANTAGES:

- easy welding of thin materials
- decreased deformation of material
- extremely stable arc even when working with low currents
- rapid and accurate tack welding
- easier coupling of spaced sheets
- excellent results on steel, aluminium and during brazing operations
