GETTING STARTED

Power On/Off

- Press and hold the power button for 4 seconds to turn the WTX ON/OFF.
- If you experience incorrect yardages or unusual behaviour on the WTX, we recommend to do a RESET. To RESET: turn the WTX off and then back on.

Charging

- Place the WTX on the charging cradle with the charging terminals facing each other.
- Connect the charging cradle with the USB power adapter by using the USB cable.
- Plug the USB power adapter into an electric socket.
- After fully charging the WTX, disconnect it from the charging cradle. Unplug the USB power adapter from the electric socket.

*Important: Do not use a quick charger or adapter to charge the WTX watch. Doing so may cause damage and void the warranty. AC adapters should not exceed 5.0v. Check your AC adapter prior to using.

Battery charging tips and precautions

- The "Data Sync" button may appear when using a power source other than the USB power adapter, such as a computer, which will be only used to update the firmware and courses via the GB Manager. Ignore this button when charging. Pressing the button may result in a slower charge or stopping the charge completely.
- Sweat or liquid on the charging terminals, may cause corrosion. Clean the terminals before charging the battery.
- If the battery is completely depleted, the WTX will not turn on immediately when the charging cradle is connected. Allow a depleted battery to charge for a few minutes before turning the WTX on.
- When the battery is charged in a high temperature environment such as inside a car during the summer, the WTX may overheat and can cause serious damages to the battery.
- Connecting the charger improperly may cause serious damage to the WTX.
- Any damage caused by misuse is not covered by the warranty.

BASIC OPERATION

Play Golf

- Once you are at the course, swipe the screen to the left to view the Main Menu.
- From the Main Menu screen, tap the "GolfBuddy" icon to enter Golf Mode. The WTX unit will automatically search for the golf course.

Distance to the Green

- By tapping the distance number on the screen (see images below), you will be able to switch Golf screens.

BASIC OPERATION

BASIC OPERATION

Automatic Hole Recognition

- The WTX will automatically advance to the next hole as you play through the course.
- Please note, in rare instances, it may be necessary to manually advance to the next hole.

Manual Hole Selection

- To change from the current hole to the next hole in Play Golf Mode, swipe the screen twice from top to bottom.
- To change from the current hole to the previous hole in play Golf Mode, swipe the screen twice from bottom to top.

Exit Golf Mode

- From Play Golf Mode, press and hold anywhere on the screen for 4 seconds to exit the game. Tap the "Yes" button to end the round.
- Once abnormal hole information, press "GPS Reset" or press power button 3 times, then GPS will reset.

How to use the Demo Mode

- To view the function of GOLF mode while away from the golf course, you can put the WTX into "Demo mode". To enter the "Demo mode", tap the red area in numerical order continuously at the screen of searching the satellite.

ADVANCED OPERATION

Pin Placement

- You can access the Dynamic Green View and Pin Placement Mode by tapping on the green **H07**. After the pin placement, you can return to the golf screen by tapping the screen.
- From Dynamic Green View screen, you may also change the placement of the pin on the green image by dragging the pin.

Measuring Shot Distance

- In Play Golf Mode, press and hold anywhere on the screen for 2 seconds to enter the Shot Distance screen.
- To start measuring your shot distance, tap the play button **H**. The Shot Distance Mode will return to the Play Golf screen by tapping the screen or pressing the "Power/ESC" key and will measure the distances in the background.
- Once you have reached your ball, press and hold anywhere on the screen for 2 seconds and tap the pause button **I** to finish measuring and view the shot distance.

Settings

- In the Shot Distance screen, you can enter "SETTINGS" by tapping the **Dynamic Green View** image or swiping the screen from right to left.
- From the Settings Menu, you can change the unit of measurement between Yards and Meters as well as switch the screen to Always ON/OFF.
- **Note: If "Screen Always On" is set to ON, the screen will always be on in Golf Mode, but the battery life will decrease faster (Max. 6 hours).
