How to Use the Charts

**USE THE CHART TO PAINT YOUR NEEDLEPOINT CANVAS!
OR STITCH DIRECTLY ONTO A BLANK CANVAS - THIS METHOD OF NEEDLE-
POINT INVOLVES COUNTING INTERSECTIONS* RATHER THAN FOLLOWING THE
PAINT ON THE CANVAS. THE PATTERN IS CREATED ON THE CANVAS AS YOU
STITCH!**

*An intersection is where the horizontal and vertical threads of the canvas cross over each other. See illustration.

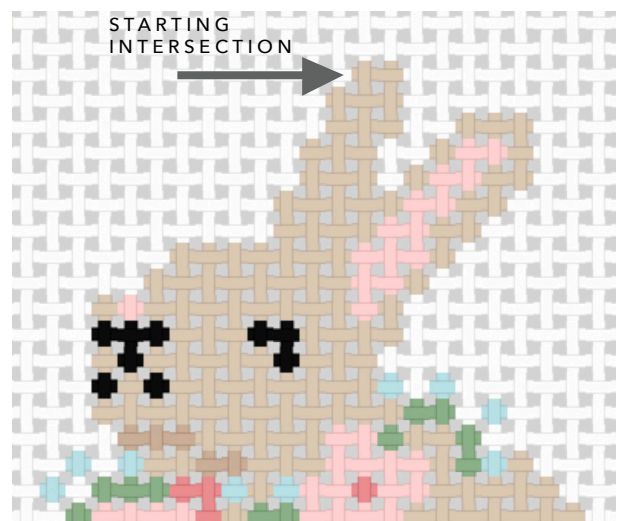

This chart represents the pattern as it would appear painted on the needlepoint canvas.

1. Begin by finding the starting intersection which is marked for you here on the chart. Start your thread, leaving a waste knot 3/4 of an inch to the right of the starting intersection.
2. Place your first Tent Stitch over the starting intersection.
3. Count the intersections in the first row. There are two in total so take one more stitches to the right of your starting intersection.
4. Count one intersection down from your last stitch and begin a new row - stitching three intersections to the left, to complete the row.
5. Continue counting and stitching.

A traditional grid chart is also included for those stitchers familiar and comfortable with working from a grid. Each little box on the chart represents one intersection* of the canvas and therefore one stitch.

Each colored box represents a single stitch in a given thread color. The white or blank boxes are waste canvas.
