(Unit: cm)

02 Preparation

- ① Cut out the pattern, calculate how much fabric you need.
* The pattern involve 1cm seam allowances.
- ② Prepare fabric, if needed, please wash the fabric.
- ③ Place the pattern and cut out the fabric carefully (red line).

Make notch (cut about 3mm)

* Note

The "necessary quantity" is measured placing patterns without considering the top and bottom.

If the fabric has direction, please place the pattern and measure the length of the fabric you need before you buy.

* The table is written as A x B (see diagram on left)

* Purchase some extra fabric, because most cotton shrink to some degree.

Wash the fabric in the same manner you intend to use for the finished garment.

This will preshrink the fabric and remove the surface finish which will make it easier to sew.
