

# Soft Flooring Adhesives

## STIX A800 PREMIUM

### DESCRIPTION

STIX A800 PREMIUM is a solvent-free acrylic adhesive with very low VOC emissions (EC1 Plus), and a powerful immediate grab.

The adhesive's early strength build up coupled with a high final bond strength make it ideal for LVT planks and tiles, as well as rubber flooring. It may also be used with most resilient flooring including PVC sheet and tiles (both heterogeneous and homogenous), cushioned vinyl, non PVC based (e.g.polyolefin) sheet flooring, linoleum sheet and tiles, as well as thermal acoustic underlays.

The Bostik STIX A800 PREMIUM is ideal for sports facilities, PVC wet rooms, commercial areas, hospitals and schools, as well as residential and domestic uses.

### FEATURES & BENEFITS

- Ideal for LVT and rubber
- Short waiting time
- High initial grab

## STIX A300 MULTI FLOOR

### DESCRIPTION

Bostik STIX A300 MULTI FLOOR is a multi-functional acrylic adhesive suitable for a wide variety of soft floor coverings in residential and commercial applications.

The adhesive has a high initial tack, combined with a long open time and exceptional handling characteristics that make it easy to apply.

With an excellent shear strength and low VOC emissions (EC1), Bostik STIX A300 MULTI FLOOR is suitable for interior use with a wide variety of PVC floor coverings, including sheet and tile form, homogeneous and heterogeneous, semi-flexible tiles, cushion-backed vinyl and some textiles.

### FEATURES & BENEFITS

- High initial tack
- Long open time
- Strong and rapid curing

# FIX A320 TACK

## DESCRIPTION

Bostik FIX A320 TACK is a solvent-free, non-staining polymer dispersion pressure sensitive adhesive designed to provide a permanently tacky film when dry, which facilitates the easy removal and replacement of carpet tiles.

With very low VOC emissions (EC1 Plus), it can be used to bond stable, flat carpet tiles backed with PVC, polypropylene and bitumen with fibre backing. This makes the adhesive particularly well suited to office environments and raised access panel systems.

Bostik FIX A320 TACK can be used on concrete, cementitious screeds, terrazzo, chipboard, hardboard, plywood, smoothing compounds, wooden or metal raised floors and existing floor coverings, e.g. ceramic tiles, vinyl floorings.

## FEATURES & BENEFITS

- Ideal for office applications
- Easy roll-on application
- Easy removal and replacement of carpet tiles
