

## CIRRUS CARPET

### Integrated Cushion Backing System

Cirrus is an integrated carpet backing system that allows for a single process flooring installation. No additional underlay is required as the thick, felt-type cushion backing provides exceptional comfort underfoot.

### Convenient, Cost Effective & Quicker Installation

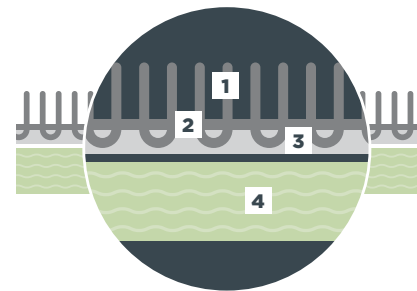

This direct stick, single process installation offers increased speed and ease of installation perfect for the keen DIY'er.

### Increased Performance & Appearance Retention

Cirrus carpet also feature excellent acoustic properties and complies with BCA/NCC flammability requirements offering quiet, and comfortable environments.

### Environmental Benefits

Cirrus Carpet is made from 99% recycled content.

1. Yarn
2. Primary Backing
3. Pre-coat (latex binding layer adding tuft strength)
4. 3mm Cirrus cushion backing made from recycled content
