m² per Pack	2.42m²	m² per Pallet	89.600m²
Pack Weight	24kg		

TEST DATA

Fire Rating	Critical Heat Flux: 4.2kW/m² Smoke Value: 8% minute	Slip Resistance	P3
Certification	Forestry Stewardship Certification (FSC)		

Warranty	25 Year Residential Warranty 10 Year Commercial Warranty
Variations in Timber	<p>Timber is a natural material and variations in colour, texture and other naturally occurring features occur between pieces and batches of the same species.</p> <p>Timber flooring, whilst dried during production, continues to take up and give up moisture during its life, depending on weather, aspect and local conditions. In so doing, some movement and changes to the surface of your floor are to be expected and will be apparent. This is normal and may include fine cracks on and between boards and changes in colour.</p> <p>Single plank for engineered flooring may include some nested lengths. All orders to be dispatched to the nearest full pack.</p>
