Essential Oil-Scented Finger Paints

Instructions:

In a medium-size pot, whisk together cold water, cornstarch, and salt. Heat over medium heat, stirring often, until mixture thickens.

Remove from heat, and let cool.

Pour the mixture into plastic bottles, and add a different color of food coloring to each bottle, stirring in with a bamboo skewer, until you achieve your desired color.

Add a drop of essential oil to each bottle of paint, and stir in the essential oil with the bamboo skewer. Be sure to choose essential oils that are safe for children. It's fun to choose oil scents that go along with each color, and this also makes for a fun sensory experience. For example, mix a drop of Douglas fir essential oil in with the green paint and a drop of peppermint in the red. Twist the lids onto your bottles, and your paint is ready to enjoy!

Ingredients & Supplies:

- 2 cups cold water
- 1 Tbsp. cornstarch
- 1 tsp. salt
- Plastic bottles
- Food coloring
- Essential oils

1 oz. Natural Plastic Bottles

These bottles are perfect for holding your homemade finger paints.

Solid Perfume

Ingredients:

- 1 Tbsp. Beeswax Pellets (pg. 1)
- 3 Tbsp. Jojoba Oil (pg. 11)
- 3–4 drops Vitamin E Oil (optional; pg. 1)
- 90–120 drops essential oils

Instructions:

- Pack Beeswax Pellets into a tablespoon-size measuring spoon until it is packed level with the top; then dump the beeswax into a heat-proof glass measuring cup.
- Add 3 tablespoons of Jojoba Oil to the Beeswax.
- Place the measuring cup in a large saucepan that is filled with 1" of hot water.
- Place the saucepan and measuring cup on the stove, and turn the burner on low.
- Stir the mixture in the measuring cup with a bamboo skewer every couple of minutes until the Beeswax is completely melted (about 15–20 minutes).
- Turn off the stove, and carefully remove the measuring cup from the pan. Place the measuring cup on a towel on a countertop or table.
- Stir in 3–4 drops liquid vitamin E.
- Allow the mixture to cool slightly, and then stir in 90–120 drops of your desired essential oil or blend. Note: You may find it easier to pre-measure the essential oil in another container and add it all at once.
- Quickly pour the mixture into Clear Plastic Sample Jars. For an extra special gift, you could pour it into a Diffusing Locket. This recipe will fill three or four lockets, depending on size.
- Allow mixture to cool for several hours before wearing the locket or using the solid perfume. To use, take a small amount of the solid perfume with your finger, and place it on the wrists, the neck, or any other location on the skin that is desired.
