Work lamp housings are made from high impact synthetic rubber-like resin. These have the feel and shock absorbing characteristics of rubber but are UV resistant and stands up to road contaminants that deteriorate rubber lamp housings. Mounting hardware is steel with zinc plating. By changing industry standard sealed beams, each model is available in standard or halogen as work, fog or spot lamp in 6, 12 or 24 Volts.

LED sealed road lamps feature polycarbonate body and lens. Lamps are hermetically sealed to keep out road contaminants and moisture. The solid state circuit boards are epoxy coated to resist condensation and shock to diodes. LED lamps feature long life, low amp draw and are resistant to vibration. All lamps are compliant to FMVSS108 DOT standards & MOT CMVSS108 safety standards and are coded accordingly. Lamps feature conventional 3 pronged pigtailed for easy change overs from incandescent lamps. A variety of mounting options are listed with each lamp offered.

### 7" Round Lamps w/ Built-in Circuit Breaker

Lamps come with lead wires for surface mount installation without pigtailed. Built-in circuit breaker prevents lamps being damaged by voltage spikes. Lamps cease to light when voltage spikes up to 36V and will restart automatically when voltage drops

LED sealed clearance marker lamps feature polycarbonate body and lens. Lamps are hermetically sealed to keep out road contaminants and moisture. Solid state circuit boards. LED lamps provide long life, low amp draw, and are resistant to vibration. All lamps, except decorative, are compliant with DOT FMVSS108 & MOT CMVSS108 safety standards and are coded accordingly. Lamps use standard 2-prong pigtailed wires where lead wires are not used.

### Sealed Lamps w/ Decorative Chrome Bezels

LED lamps come with decorative ABS chrome bezels and 2 wires. Surface mount installation without grommet & pigtail.

LED Tow Light Kits available in different options for use on tow trucks, cars, boats, trailers and RVs. Feature long life LEDs, low amp draw. LEDs are more resistant to vibration than incandescent lamps. Rubber-like bodies are shock resistant. Plated hardware resists corrosion. Heavy duty cable available in optional lengths on request. All are easy to install and connect to standard vehicle lighting systems. 12V Application

**Heavy Duty Magnetic Tow Light Kits**

All incandescent sealed lamps feature polycarbonate body and lens. Lamps are hermetically sealed to keep out road dirt, dust and moisture. Connections are plated to resist corrosion, internally soldered and compatible with standard industry pigtailed. High quality long life bulbs. Meets or exceeds all requirements of DOT FMVSS108 & MOT CMVSS108.

Pot Lamps

Available in rubber-like EPDM bodies and powder coated steel bodies. Stop/turn/tail lamps are made sturdy to absorb normal road abuse. Rubber-like models have brass mounting grommets for secure ground and are available in single and double contact. Steel models are available in stainless steel and black enamel powder coated steel housings. All of these lamps offer an excellent low-cost durable stop, turn and tail lamps with replaceable bulbs and lens

### Display Light Boards

Various styles of display light boards available. Light boards are built with converter to plug into wall electrical outlet for power supply and can be used as a counter top display or wall mount display. The following are sample units. Units with different light combinations are available. Please call for details.

Horizontal LED Display Light Board  
Box Dimension : 2.5" L x 14" W x 2.5" D

Vertical LED Display Light Board  
Box Dimension : 33.5" L x 10.5" W x 2.25" D

### Retail Display Racks

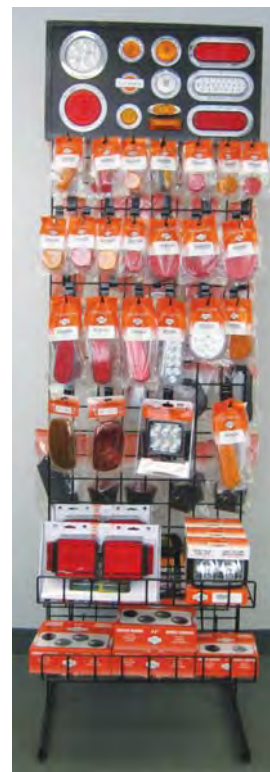

2' x 6' gridwall panel display racks. Supplied with hooks and/or shelves. Perfect for displaying retail packaged products. Display racks can be mounted on T-legs for single sided or double sided display. Display racks can also be mounted to the wall or to the end of a rack. Various combinations of retail packaged parts are available. The following are some sample racks. Please call for details.

Single Sided Display Rack with LED lamp kits

Single Sided Display Rack with incandescent lamp, work lamps & mounting accessories

Double Sided Display Rack with display light board and variety of lighting products

Code	Function
A	Reflex reflector
A2	Reflex reflector for use on vehicles 2032 mm or more in width
A3	Reflex reflector for conspicuity treatment (CT), for use on vehicles 2032 m or more in width
A4	Reflex reflector for CT (vehicle > 2032 mm width) - 50 mm wide (truck/trailer)
A5	Reflex reflector for CT (vehicle > 2032 mm width) - 75 mm wide (truck/trailer)
A6	Reflex reflector for CT (vehicle > 2032 mm width) - 100 mm wide (truck/trailer)
A7	Reflex reflector for CT (vehicle > 2032 mm width) - 25 mm wide (school bus)
C	Motorcycle auxiliary front lamp
D	Motorcycle and motor-driven cycle turn signal lamp
DL	Distributed lighting system (headlamp)
DRL	Daytime running lamp not optically combined with a headlamp low or high beam
E	Side turn signal lamp - vehicles 12 m or more in length
E2	Side turn signal lamp - vehicles less than 12 m in length
E3	Rear facing side turn signal lamp
E4	Side facing side turn signal lamp
E5	Side directional indicator lamp
EVS1	Siren - interior location
EVS2	Siren - exterior location
EVS3	Siren - under hood location
F	Front fog lamp
F2	Rear fog Lamp
F3	Harmonized front fog lamp
G	Truck cargo lamp
H	Sealed beam headlamp
HC	Headlamp cleaner
HG	Discharge forward lighting headlamp
HH	Sealed beam headlamp housing
HI	Integral beam headlamp
HR	Replaceable bulb headlamp (filament type)
HL	Light Emitting Diode (LED) headlamp
H"x"1	Harmonized headlamp type designation (example: HR1)
I	Rear mounted or front mounted turn signal lamp mounted 100 mm or more from the headlamp; for use on vehicles 2032 mm or less in width
I3	Turn signal lamp spaced from 75 mm to less than 100 mm from headlamp
I4	Turn signal lamp spaced from 60 mm to less than 75 mm from headlamp
I5	Turn signal lamp spaced less than 60 mm from headlamp
I6	Rear mounted or front mounted turn signal lamp mounted 100 mm or more from the headlamp; for use on vehicles 2032 mm or more in width
I7	Front mounted turn signal lamp mounted less than 100 mm from the headlamp, for use on vehicles 2032 mm or more in width

Code	Function
J1690	Flasher
K	Front cornering lamp
K2	Rear cornering lamp
L	License plate lamp
M	Motorcycle and motor-driven cycle headlamp - motorcycle type
