

ASATRU & MJOLNIR

FOR IMMEDIATE RELEASE

PEGRAM, TN: GI JEWELRY, manufacturer of Genuine U.S. Military Issue Religious Jewelry, announces the introduction of two Nordic Themed Necklaces...the ASATRU & MJOLNIR.

Before Christianity, the Nordic People had their own Religion. They called it ASATRU (Assa-true), which means "Belief in the Gods". One of their most recognized Nordic Gods was Thor, who's best known for his work with a Battle Hammer, or MOLNIR (Mole-neer).

As with GI JEWELRY's complete line, the ASATRU & MJOLNIR are precision laser cut out of 100% stainless steel. The ASATRU is 7/8" tall by 1" wide; the Mjолnir is 1" tall by 13/16" wide. Both are attached to a 24" stainless steel "dog tag" type beaded chain.

GI JEWELRY is the only manufacturer to produce a line of Religious Jewelry designed specifically to survive the rigors of Military Use. They not only supply this product to the Joint Services Chaplains Division through the Defense Logistics Agency, but also to 1000 Retailers Worldwide.

Their line consists of 42+ different designs, reaching most Religions from the Christian, Catholic, Protestant, Jewish, Muslim, and Buddhist Faiths. Each necklace is covered by a Lifetime Warranty and is Made in the USA.
