

INTESTINAL CLEANSE

ZENCLEANZ ONE DETOX KIT

The ZenCleansz ONE is our flagship cleanse kit and step 1 of our 5-Element detoxification system to purify the body. ONE is a revolutionary intestinal and colon cleanse that has the power to clear intestinal plaque from the body in ONE DAY. This power-packed fermented enzyme cleanse kit contains only all-natural and organic ingredients, which include our liquid Ambrosia, Intestinal Management powder, and Fiber Crystals. Together, these enzymes help clear the body of long-term intestinal mucoid plaque: the contributory source of all illnesses. ONE discharges old waste, absorbs toxins from the intestinal walls, helps regulate and restore intestinal flora, and improves immunity.

STEP 1: WHY CLEANSE THE DIGESTIVE SYSTEM?

Cleansing the intestinal tract from mouth to anus is essential as it is the entry point of the external energy that we draw in through food and also because it is the primary sewage system of the body. Gradually, since birth, we've been eating, digesting, and expelling feces, but not all of it. The small intestine's function is the gateway between our food and blood. It is a long track where the food is broken down into nutrients, and that exchange happens with the blood. Clogging this hollow tube creates malabsorption and weakens our overall energy and health. Like a sewage pipe, a portion of gunk has accumulated gradually along the intestinal lining, making "mucoid plaque." Mucoid plaque in the intestines creates a toxic backup in our system.

ZENCLEANZ

INTESTINAL ZENCLEANZ ONE

MAY HELP PEOPLE WITH:

- Digestive issues such as bloating, gas, and constipation.
- Skin problems such as acne, eczema, and psoriasis.
- Frequent headaches or migraines.
- Chronic fatigue or unexplained exhaustion.
- Brain fog or poor concentration.
- Mood disorders such as anxiety, depression, or irritability.
- Joint pain or muscle aches.
- Frequent infections or weakened immune system.
- Food allergies or sensitivities.
- Hormonal imbalances or irregularities.

WHAT TO EXPECT WHEN DOING A ONE CLEANSE:

The ONE Intestinal cleanse takes one day to perform by taking the kit's enzymes at timed intervals throughout the day. Self-care protocols are also included in the day's schedule. The cleanse has a schedule and a system to help release intestinal mucoid plaque safely and successfully. Plaque releases are typically seen later the following day. Note: keeping a liquid no-fiber diet for a few days after this cleanse helps release more mucoid plaque.

★★★★★

The continued results from clients with the mega dose enzyme cleanse is astounding.

Josh Macin
Detox Expert, United States

★★★★★

This one day colon cleanse is one of the most effective ways i've seen to clear Damp.

Ross J Barr
Acupuncturist, England

★★★★★

I will prescribe it to all my patients
