

VOLTA

USER MANUAL

www.sunslice-solar.com

I. INTRODUCTION

Thank you for your purchase. We hope you will have a great experience using the Sunslice Volta.

The Volta was designed in Belgium by two young engineers whose ultimate goal was to create a practical and elegant wallet which could provide a charging solution for our daily life.

This manual contains important safety and product care information, as well as step-by-step instructions for using your Volta. To get the greatest benefit from your purchase, we recommend you read the manual thoroughly, and keep it in a safe place in case you need to refer to it later. In case you face any issue with your product, please contact us directly at service@sunslice-solar.com.

At the end of this manual, you will find information about other products created and offered by Sunslice. You can also find them on our website www.sunslice-solar.com.

COMPATIBLE WITH :

II. PRODUCT OVERVIEW

BATTERY INTERFACE

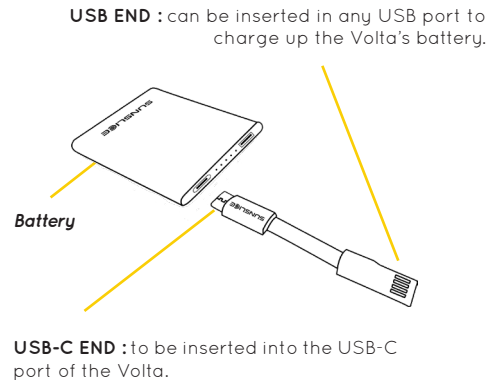

III. SPECIFICATIONS

Battery Capacity	4'000 mAh Li-ion
Battery Input	5V/2.0A - USB-C
Battery Output	5V/2.4A - USB
Dimensions Volta	100x80x19mm
Weight	150 g

IV. CHARGING THE VOLTA

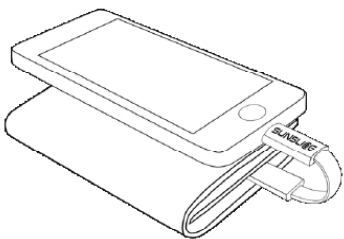

VIA WALL OUTLET

We recommend charging the Volta fully before the first use.

V.

CHARGING YOUR DEVICE

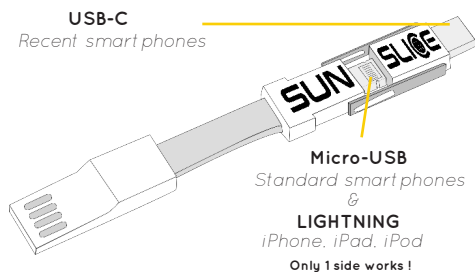

Connect the Volta to your mobile device with the universal USB cable provided. Choose the right output as described below. The blue LED indicators confirm that the device is charging.

 The 4'000 mAh battery can charge a smartphone in around 1 hour.

CHOOSE THE RIGHT CABLE OUTPUT

The universal cable provided with the Volta is constituted of 3 different outputs. You can therefore charge the majority of your devices with this single cable.

VI.

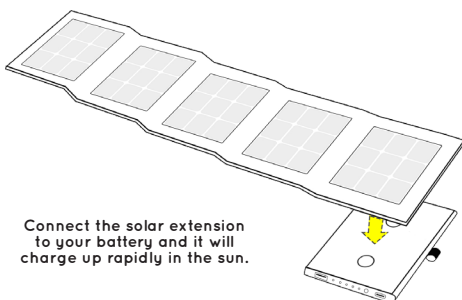

THE SUNSLICE PORTFOLIO

Our ultimate mission is to provide "Energy Anywhere". We are continuously working to develop new ideas and products to give you access to energy, anytime, anywhere. The Volta's battery is detachable, and compatible with our range of products by combining it with the other extensions.
