

# CARING FOR YOUR GARMENTS

Please turn all garments inside out prior to washing, this will help moisture to evaporate from the garment.

Place your garment inside a pillowcase to help to prevent abrasion in the wash.

Machine wash in cold water using a gentle cycle \*

DO NOT use bleach, detergents or fabric conditioner

Remove from the water and hang to dry immediately

DO NOT tumble dry

DO NOT leave folded when wet

DO NOT lay flat to dry

## LEOTARDS AND SIMILAR CLOTHING

- Leotards should be hand washed to avoid damaging the delicate fabric and for maximum life span

Please note that fabrics may dull with wear and repeated washings. Areas that incur friction or are in contact with perspiration or deodorant may show some differences. Sport Essentials cannot accept responsibility for any effect on the fabric caused by deodorants and perspiration.

If your garment contains sensitive colour combinations i.e. both dark and light colours, always wash in a large volume of water on a gentle cycle to prevent colour bleeding. Washing instructions can be found on our website and also included in orders upon dispatch.

Sport Essentials cannot accept responsibility for garments that have not been washed in accordance with these instructions.
