

# When you SEE me you know your equipment has been inspected today

Inspection NOT Taken Place Today

PASSED Inspection Today

FAILED Inspection Today

## Make Sure Daily Inspections Happen

- ✓ Visibility makes operator accountable
- ✓ Supervisors can see if inspection took place
- ✓ Instant record keeping to prove compliance
- ✓ Mitigate risk of insurance claims
- ✓ Build safety culture
- ✓ Boost production

# How does it work?

1

Safety Status Indicator prompts operator to perform safety check and houses inspection book in weather proof pouch

2

Carbon copy record is retained and easily auditable

3

PASS or FAIL safety status visibly displayed with time, date and name

4

If equipment fails inspection its immediately tagged out of service with notes ready for maintenance

Other

Here's what our customers say . . .

"They call each other out now. When they see each other has not done an inspection they say, 'hey you didn't inspect your lift'. That's safety culture"

**John Cox – Safety Captain The Empire Company**

"We use SG World USA's checklist solutions on the different types of equipment we have onsite and they are AWESOME!"

**Lisa Dutton - Mannington Commercial**
