TECHNOLOGIES

HOSPITAL GRADE SANITISER & ANTIMICROBIAL PROTECTANT

SAFEGUARD YOUR ENVIRONMENT WITH ISOPROTECT

- A unique water based special purpose sanitiser and antimicrobial protectant.
- Superior formulation chemically bonds to surfaces upon drying, creating a durable antimicrobial protectant film coating.
- Organosilane molecule attracts and destroys bacteria microbes with spear like action, killing pathogens, bacteria, germs and viruses that land on bonded surfaces.
- Provides longer lasting antimicrobial protection for 28+ days on hard surfaces.
- Food safe, colourless, odourless and non-leaching.
- Eco-friendly and non-toxic.

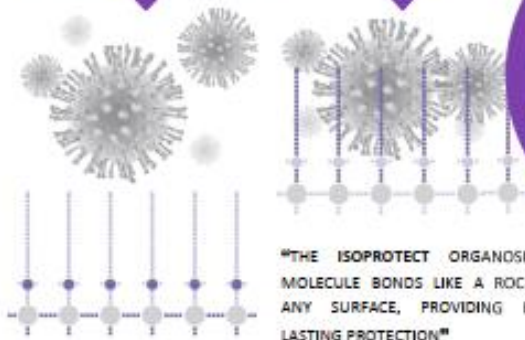

KILLS
99.99%
OF GERMS

HOW ISO PROTECT WORKS

The chemical makeup of the Organosilane molecule attracts the bacteria microbes

Bacteria microbes are impaled and destroyed by the organosilane molecules

THE ISO PROTECT ORGANOSILANE MOLECULE BONDS LIKE A ROCK TO ANY SURFACE, PROVIDING LONG LASTING PROTECTION**

INDUSTRY APPLICATIONS

- Hospitals and medical institutions
- Aged care facilities
- Educational institutions
- Cafes and restaurants
- Food processing environments
- Offices, commercial and industrial

Just because a surface has been cleaned, it doesn't mean that it is hygienic. In fact, even though the area looks clean, microscopic organisms and pathogens are still alive and multiplying at an astounding rate. After pre-cleaning an area with ISOSHIELD™ or ISOPRO* apply ISOPROTECT to ensure ongoing protection from harmful germs and bacteria.

SUPERIOR PROTECTION LIKE NO OTHER

ISOPROTECT is a unique and superior water based antimicrobial protectant.

ISOPROTECT redefines on-going protection against bacteria and germs with a revolutionary formulation that can be safely applied to a wide range of hard and soft surfaces in multiple domestic, commercial and industrial applications.

ISOPROTECT When applied to surfaces, creates a durable bonded antimicrobial coating which has sustained and proven antimicrobial properties.

Apply ISOPROTECT to:

- Walls
- Ceilings
- Floors
- Doors and other hard surfaces
- Soft surfaces & fabrics including carpets, curtains, bedding, etc.

ISOPROTECT is applied without dilution to surfaces by a spray and wipe application or a fine mist fogging.

Australian TGA Certified Hospital Grade Disinfectant

ISO PRO³™

iso
TECHNOLOGIES

3-IN-1 CLEANER SANITISER & ANTIMICROBIAL PROTECTANT

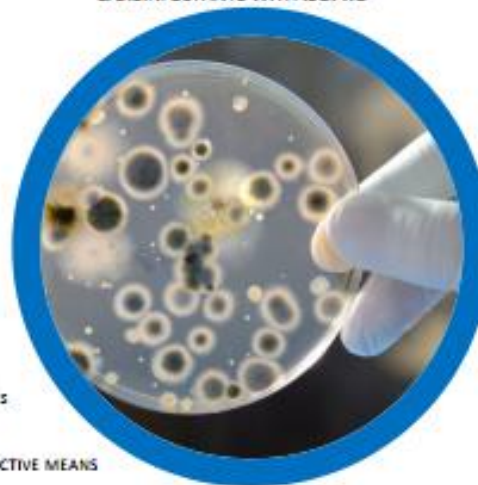

A SUPERIOR EVERYDAY HYGIENE SOLUTION

- ISOPRO³™ is a unique, highly effective water based all-purpose cleaner, sanitiser and antimicrobial protectant.
- ISOPRO³ redefines protection against bacteria and germs with a revolutionary formulation of active ingredients that can be safely applied to a wide range of hard and soft surfaces for multiple domestic, commercial and industrial applications.
- ISOPRO³ is one of the safest and most effective means of cleaning, sanitising and protection against germs, bacteria, mould, mildew, odours and nasty viruses.
- ISOPRO³ is a highly concentrated formulation, giving exceptional cost in use and value for money.

KILLS
99.99%
OF GERMS

REPLACE YOUR EVERYDAY GENERAL CLEANERS
& DISINFECTANTS WITH ISOPRO³

PROTECT YOURSELF

ISOPRO³ is a unique, highly effective all-purpose cleaner, ideal for use in:

- Hospitals & medical institutions
- Aged care facilities
- Educational institutions
- Cafes & restaurants
- Food processing environments
- Offices, commercial & industrial environments

“ISOPRO³ IS ONE OF THE SAFEST AND MOST EFFECTIVE MEANS OF CLEANING, SANITISING AND PROTECTING”

SUPERIOR PROTECTION LIKE NO OTHER

ISOPRO³ is one of the safest and most effective means of cleaning, sanitising and protection against germs, bacteria, mould, mildew, odours and nasty viruses.

Protect yourself from:

- E.coli
- Pseudomonas Aeruginosa
- Salmonella Menston (food poisoning)
- Staphylococcus Aureus (MRSA)
- Candida Albicans (yeast)
- Aspergillus SPP (black mould)
- Enterococcus Faecalis

And many other bacteria, moulds and viruses

SUPERIOR CLEANER, SANITISER & PROTECTANT

ISOPRO³ is a high quality cleaner and surface sanitiser. When applied to surfaces, it creates a durable bonded antimicrobial coating which has sustained and soundly proven antimicrobial properties.

CLEANS

Safely cleans away dirt, oils, fats, grease, faeces, blood, germs and bacteria that can be invisible to the eye.

SANITISES

Killing 99.99% of germs, the ISOPRO³ is safe to use but deadly to germs with its rapid broad spectrum action.

PROTECTS

ISOPRO³ is a unique formulation, bonding to surfaces and providing longer lasting antimicrobial protection.

DILUTE CONCENTRATE
1 PART ISO PRO³ TO
10 PARTS WATER
FOR EVERYDAY CLEANING

ISOPRO³

- Cleans and removes dirt and grime
- Leaves the surface with a bonded antimicrobial coating
- Eco-friendly and non-toxic

APPLY ISOPRO³ TO ANY SURFACE

- **HARD SURFACES** – Painted surfaces of walls, floors, roofs, ceilings, non-painted surfaces of desks, tables and wardrobes. Stainless steel, formica, plastics, porcelain, fibreglass, marble and synthetic marble.
Wet walled linings of kitchens, bathrooms, cool stores, offices, medical institutions, etc.
- **SOFT SURFACES** – Drapes, furnishings, carpets, mats, mattresses, sheets, blankets, bedspreads, upholstery, shower curtains, clothing fabrics, HVAC air conditioning filters, etc.
