

SINCE
1958

17 MILES OF TUNNEL

Redmond started mining a unique underground mineral deposit in 1958. In 2005, Joe Anderson discovered how well our minerals work to attract whitetail deer. One small team and a lot of word-of-mouth later turned Trophy Rock into the #1 selling mineral supplement for deer on the market.

THE FOUR CORE VALUES EMBODY OUR CULTURE, SPIRIT, AND DEDICATION TO DOING WHAT'S RIGHT. THEY KEEP US ALIGNED AND HELP US MAKE DECISIONS ABOUT EVERYTHING FROM THE WAY WE SERVE OUR CUSTOMERS TO THE PRODUCTS WE CREATE.

EXPERIENCE

Hunting is a chance to get outside and connect with nature. It's about time spent around a campfire, telling stories and building relationships.

QUALITY

We produce products we believe in. Products we can stand behind. We believe in quality of product and ingredients, and finding quality in life by the choices we make everyday.

HERITAGE

We are hunters, determined to pass on the stories and traditions of those who came before us.

STEWARDSHIP

Hunting is conservation. We respect and nurture the land so it can give back all we need to sustain life for ourselves and our future generations.

GROW BIGGER BUCKS + ROCK YOUR HUNT

We are hunters dedicated to managing and attracting deer with quality and dependable products. While hunting and the outdoors are our primary passion, we're people who are curious—about each other, our communities, and the entire world. Redmond Hunt products expand your ability to manage your land, provide quality deer management, and keep animals coming back.

REDMOND HUNT PROMISE

We help you grow bigger bucks naturally with quality, affordable products that work hard in the field to help you consistently harvest a buck at 20 yards. Every product is mined or made in the USA by hunters like you and fully backed by our Redmond 100% satisfaction guarantee.

YOU CAN COUNT ON:

DENSITY

A quality rock is not flaky. You do not want a crumble rock. Dense rocks last longer in the field.

STRUCTURALLY SOUND

You should not see fractures or cracks.

COLOR VARIATION

You want a rock with sheen and multiple colors tones. Stay away from rocks that are predominantly dark and dull.

NO MIDDLE MAN

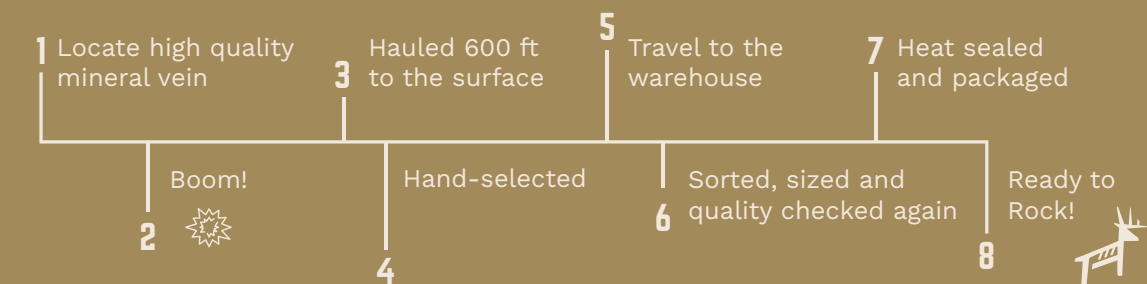

Products direct from the source.

ALL REDMOND TROPHY ROCK PRODUCTS ARE DERIVED FROM THIS QUALITY FOUNDATION.

TROPHY ROCK CRUSHED

Four65 is a granular form of our best-selling Trophy Rock deer attractant! It contains the same all natural trace minerals deer need for optimal antler growth and health. Use it to successfully attract, inventory, and scout your herd. With Four65, you provide deer the essential minerals they need and grow healthier herds and bigger bucks.

POWERFUL DEER ATTRACTANT

Four65 is a natural deer magnet! They love it and will return to it again and again, giving you the satisfaction of watching them grow.

TRAIL CAM COMPANION

Four65 is the perfect tool to help you scout and track deer. Spread it near your trail camera to attract deer and capture incredible photos of bucks and other wildlife.

MINED IN USA

If locally sourced is important to you, Four65 is a great choice. It's mined in Utah, USA, and your purchase supports small-town jobs and the American economy.

ALL NATURAL TRACE MINERALS

Without sufficient minerals, deer can't reach their full growth potential. Four65 delivers 60+ balanced minerals their bodies need. It's a quality supplement you can feel good about giving your herd.

STEP 2

REDMOND® TROPHY ROCK BLOCK

NATURAL TROPHY ROCK MINERALS

Block is packed with the same 60+ trace minerals found in original Trophy Rock. It's a natural supplement that provides deer essential nutrients for optimum health and antler growth.

POWERFUL DEER MAGNET

Irresistible candy apple scent helps deer find your site faster, while natural minerals and molasses sweetener keep them coming back.

MORE BANG FOR YOUR BUCK

Pound for pound, Block is a cost-effective choice. It provides deer with a long-lasting mineral source and you more bang for your buck.

TRAIL CAM COMPANION

Use it as an effective surveying tool to help scout and pattern deer or get incredible trail camera shots.

MINED IN UTAH, USA

The minerals in Block are mined in Utah, USA from an ancient salt deposit. Your purchase supports American jobs and the American economy.

THE ORIGINAL NATURAL MINERAL ROCK

Never Processed. Always Natural. Deer and hunters love Redmond Trophy Rock. This natural mineral rock provides deer with the electrolytes and trace minerals they need for optimum health. They are drawn to Trophy Rock's full spectrum of sea minerals year round!

BIGGER BUCKS . . . NATURALLY®

Use it to attract, inventory, and scout out your herd. With Trophy Rock, your deer receive the minerals they need, and you'll get healthier herds and bigger bucks.

ALL-NATURAL MINERALS

Other big game attractants use chemicals; however, Trophy Rock for deer is an all-natural deer attractant that you can feel good about giving the herd.

HELP DEER GROW

Without sufficient minerals, deer cannot reach their maximum potential. With Trophy Rock all-natural minerals, deer have the nutrients they need.

STEP 3

REDMOND LIQUID TROPHY ROCK

DUAL THREAT

Liquid Trophy Rock is a versatile weapon in your hunting arsenal. Use it to create an instant new deer mineral site or quickly activate an existing one.

HELPS DEER GROW

Support deer rack growth and optimum health with 60+ mined trace minerals included in Liquid Trophy Rock. It's an all-natural attractant you can feel good about giving the herd.

GRAB 'N GO

Support deer rack growth and optimum health with 60+ mined trace minerals included in Liquid Trophy Rock. It's an all-natural attractant you can feel good about giving the herd.

Head into the woods with less bulk and more ability. Liquid Trophy Rock pouch is easy to pack in and pour out for fast, effective results.

DEER MINERAL ATTRACTANT

Irresistible sweet-n-salty flavor and potent molasses scent pull bucks from afar and keep them coming back.

HUNTERS LOVE IT

BECAUSE DEER CAN'T GET ENOUGH

★★★★★
"Trophy Rock not only provides year-round mineral for my Whitetail herd, but it also is extremely attractive to deer and a great tool for trail camera photos"

MICHAEL HUNSUCKER,
HEARTLAND BOWHUNTER

★★★★★
"The deer can't get enough of the powerful **sweet apple scent in Trophy Rock Block**. I put up my first camera in late spring and couldn't believe the number of deer hitting it the first week. The new blocks are just as long lasting and sturdy as the trophy rock. I will not leave any of my spots without a Trophy Rock Block."

ISAAC BOONE

★★★★★
"**Liquid Trophy Rock** is a game changer! Whether your putting out in summer or before you get in stand it works! Add it to your arsenal all year long!"
