

◎ Portable Anesthesia Machine **MSLMV10**

Special Feature

- ◆ Specifically designed for surgical locations wherever space is limited, ideal for office base anesthesia
- ◆ No electricity will be needed, only Manual operation
- ◆ Ventilation mode: Closed, Semi-closed, Semi-open
- ◆ Classical CO₂ circle absorber is with 1 canister, low resistance, minimum gas leakage, 60cmH₂O peak pressure protection

Option

- ◆ Anesthesia Ventilator
- ◆ Trolley

Specifications:

- ◆ Volume(Manual Mode):
20~1500ml
- ◆ Gas Supply:
O₂+ ~0.65Mpa
- ◆ Flowmeter:
O₂: 0.1~10l/m,
- ◆ APL Valve:
0.5~6.0kPa
- ◆ O₂ Flush:
25~75L/min.
- ◆ CO₂ Canister:
1000mL

Dimensions

- ◆ Size 50*22*56cm
