# SPECIAL REPORT

## “How to Get the Most Out of Your Lesson Membership”

Darren deMaille/Bobby Lopez, PGA

We wrote this report because it's very important to us that you improve your golf game AND enjoy your experience with us. Just like you, we are also consumers of goods and services. Just like you, we like it when a vendor cares about one's experience with their product. So, believe me when we say, your increased enjoyment of the game we all love (golf) is very important to us!

Keep in mind one thing, golf by its nature will provide bumps along the road. **Your golf swing will always be a “Work in Progress”** so you need to accept the bad days along with the good ones. Touring pros spend all day hitting golf balls and continue to hit some wild shots. You see pros on TV during the weekend and generally the leaders, who are playing their best golf. If you viewed some of the players that didn't make the cut that week, you would begin scratching your head, as they do.

Enjoy the game and the fellowship with your playing partners. Life is short and your golfing life even shorter, so relax and enjoy it.

### **What is This Golf Game Improvement Club All About?**

This **Golf Game Improvement Club** concept is unique and was developed over 30 years of trial and error. We am NOT aware of another program like the one you are participating in. Congratulations for getting in on the ground floor!

**Golf Lessons are Expensive!** More importantly, being that your golf game is a continuous work in progress, the costs to maintain and continue to grow your golf game are significant. That's probably why so many golfers take a lesson here, a lesson there, with limited results. You need the constant follow-up as well as a well-rounded golfing education that reaches further than just a swing flaw or two.

All the new golf video and launch monitor technology is expensive. Golf academies look to charge higher prices due to the technology making lessons in some cases \$175 each or more! ***In fact, we were featured in a Be Better Golf CD sold to golfers over Youtube where the other three pros featured were charging some \$500 or more per hour for instruction!***

When talking golf technology, we are on the cutting edge. Some of today's technology is over kill but we have the latest in video analysis gear used by touring pros and top amateurs alike. Yes, we have the famed Trackman. We also use the V1 video capture system. The same system Phil and Tiger use. [See what Tiger has to say about V1](#). Below is a testimonial from the Vice-President of V1 who provide the best video capture software in the golf industry.

*My name is Gary Palis and I am an owner of V1 Digital Coaching systems. We do golf analysis and are a partner with the PGA of America and have over 3,000 coaches using the technology. I want to let you know the Bobby Lopez is right on with the use of technology and promoting the use of technology to increase lesson business and activity. Also, the quality of his lessons are a model to use. In fact, I use some of his lessons when we are doing seminars and presentations on "Teaching with Technology" because they are good. This may sound like a strong reference because it is. I would not write these unless I believed it and we have worked with many, many instructors so I have a very good base to compare with. Please contact me anytime by phone or email.*

*Gary Palis, Vice-President V1*

Many golfers look to the **"new swing theory or method"** like the one plane – two plane, natural golf, stack and whatever and several others. All these methods claim to take you to the promised land of golf. In our opinion, nothing could be further from the truth. You must consider your own natural tendencies when building your golf swing. Thanks to our **Game Improvement Club** Concept you have the support tools to do just that.

I remember when I was a youngster and Jack Nicklaus was just coming on the scene. Many swing "experts" claimed that he could never be successful until he tamed that flying right elbow of his. Boy, were they wrong! I can assure you that Jack Nicklaus was NOT the best striker of the golf ball. **He was the best player of his generation.** There is a difference!

Your success or enjoyment of the game of golf depends on you. What **Quick Fix Golf** will provide for you is a support mechanism that will offer you all the information and knowledge of the best minds in the game. We will be drawing information from sources other than our own as well as the experiences we've had with great players we've played with, taken lessons from and had the opportunity to spend time with to pick their brains for valuable insight.

When players get together in a restaurant or bar and talk about their golf swings, what do they really talk about? Is it swing theory? Have you seen some of the swings out there on tour? Take a look at our [PGA Tour Analysis](#) section and you will see swings like Jim Furyk, Sergio Garcia and many others, that are certainly not the text book method so many golf magazines and experts promote.

We were very fortunate to have had the opportunity to spend time with the best in the business and now all that experience is available to you, at a very low cost that any golfer can afford. That's our goal, a comprehensive golfing education for the average golfer, without spending \$3,500 or more to attend a golf school at a fancy resort in Florida or as much as \$2,500 or more for golf lessons in an indoor center hitting golf balls into a net and purchasing multiple golf lessons you might not ever complete.

We are dedicated to simplifying the golf swing and saving you a ton of aggravation, by eliminating trial and error on every golf tip you read in a golf magazine or you see on the golf channel or Youtube. Chasing various tips or suggestions, (*especially from friends*) has caused many a golfer to quit the game in frustration.

An important feature to our membership is **“communication.”** You may have avoided the frustration from attempting to perform a golf magazine tip had you only had the opportunity to ask the author a few questions. The author could have answered you with a personal application had he/she seen your golf swing on video.

We offer both, direct answers to your questions, (with our LIVE Video Analysis Membership) and personalize analysis of your swing, through state-of-the-art video technology locally and online, (included with the UNLIMITED Video Analysis Membership). Isn't your golf game worth the additional effort to increase your enjoyment?

One last thing before we get started. To meet the very low cost of your valued membership, our golf school is **“semi-automated.”** We have an automated cloud telephone system, online reservations and more. When you call us on the phone, please understand that we are most likely tied up in lessons.

## “We Currently Offer Three Memberships.”

**Our basic access to our members only section.** This invites you to take part in our members Only Clubhouse area and unlimited access to the support materials. We offer this membership to the true do-it-yourselfer. Comb through all the materials and make your own decision as to how to apply it to your specific golf game and swing.

**Our UNIMITED Video Analysis Online.** This membership offers all the access of the basic plan PLUS UNIMITED video analysis. Send in a video whenever you need one without concern for being charged extra.

If you purchased a complete lesson program at any of our locations you will receive at no extra cost, the UNLIMITED Analysis Online membership for 60 days FREE! Why? Because not only can you upload an unlimited number of videos for analysis in-between your lessons, but you may also attend our Workshop and/or Monitored Practice Lessons included with this plan.

If you are an out of town member and visiting Myrtle Beach, you of course are invited to do the same. Our Workshop Monitored Practice Lesson schedule is posted in the Members Only Virtual Clubhouse.

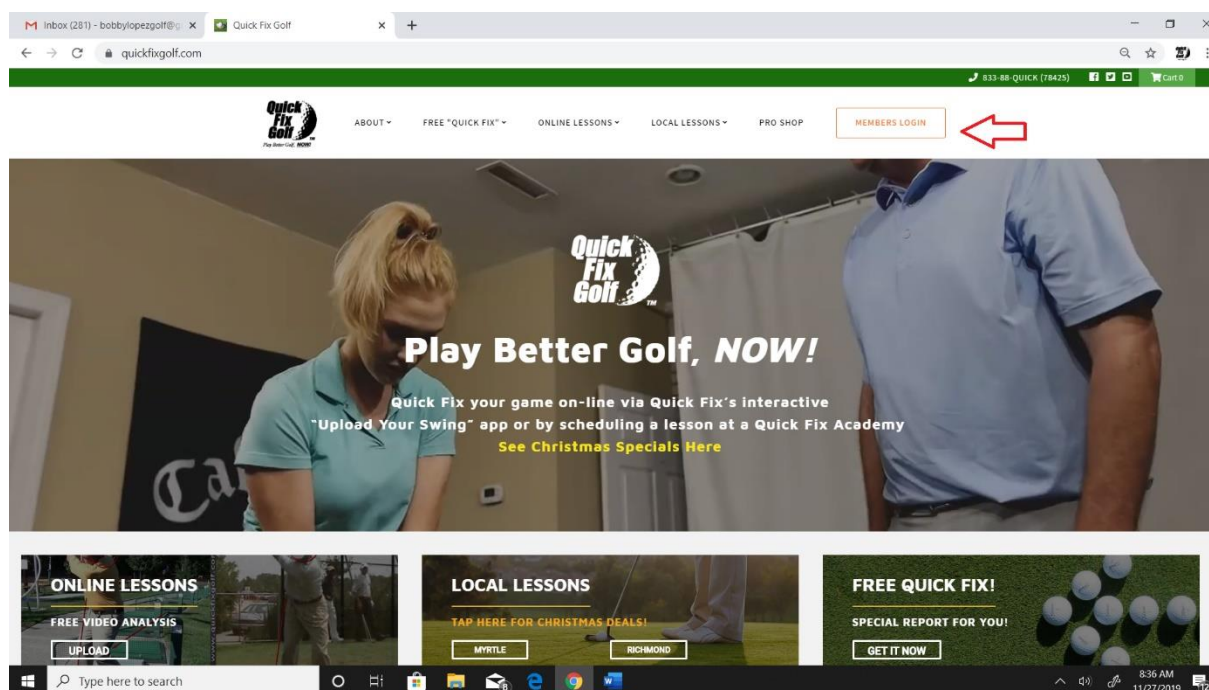

**Our LIVE Online Video Analysis Online.** This membership offers all the access of the UNIMITED Video Analysis Online PLUS six one-on-one live lessons over the internet. Lessons are generally about 15 minutes long and allows us to converse while I'm doing the analysis. You may ask questions and get straight answers on the spot. [To see all three memberships go here.](#)

The screenshot shows the Quick Fix Golf website with three membership options displayed in a row. Each option is presented in a white box with a green header and a green 'JOIN NOW' button at the bottom. The first option, 'Access to Our Member's Only Section' for \$79/Yearly, includes unlimited online classes for one year and access to an action lesson manual, drill archives, online class archives, special reports, and golf quizzes. The second option, 'LIVE Online Video Analysis' for \$279/Yearly, includes six live lessons online for one year (with additional lessons at a reduced rate), unlimited video analysis online for a full year, unlimited questions via email for a full year, and access to the same manual, drill archives, special reports, and quizzes. The third option, 'Unlimited Video Analysis Online' for \$179/Yearly, includes unlimited video analysis online for one year and access to the manual, drill archives, online class archives, special reports, and quizzes. The website's navigation menu at the top includes 'ABOUT', 'FREE "QUICK FIX"', 'ONLINE LESSONS', 'LOCAL LESSONS', 'MEMBERS ONLY MENU', and 'PRO SHOP'. The browser's address bar shows the URL 'quickfixgolf.com/pages/golf-lessons'.

# “How to Get the Most Out of Your Lesson Membership”

We have a complete **Members Only Section** of our website with tons of information for you to draw from. In that section you will find the reservations system which is part of the automated experience. Yes, all this technology can get very frustrating so if all else fails you can contact us directly but please be patient.

To get started go to [www.quickfixgolf.com](http://www.quickfixgolf.com) and look for the “Members Login” tab in the upper right hand corner of the site, (picture below). Once you click on that, just enter **your email address** and the password you created when you activated the account.

This will take you to the **Members Only Clubhouse**, where you can get all the support information you need on schedule changes, as well as new information posted to help your golf game and more. We hope to soon have an open forum feature where members can share tips and drills that worked for them.

Some of the golf instructional support you will have access to through the Member's Only Clubhouse Section are:

- **Start Your Membership Here** – Great place to get started and learn what you have at your fingertips. (*You are reading that now*)
- **Lesson Action Manual** – Our teaching method and overall philosophy and cause and effect on ball flight.
- **Online Reservations System** – Save the direct link <https://www.quickfixgolf.com/pages/reservations>

- **Archive of Past Workshops** – You can watch workshops you missed.
- **Archive of Past Webinars/Online Classes** – You can watch online classes or webinars you missed
- **Video Lesson Retrieval** – Your video lessons are stored by V1. (If you purchased local lessons at Our Myrtle Beach headquarters you will also find your past lesson hosted by V1)
- **Quick Fix Golf Drills Library**– **Please do NOT try them all, only the ones assigned to you as appropriate for your golf swing.**
- **Quick Fix Golf Special Reports**– Knowledge that will put you ahead of over 95% of amateur golfers
- Also look at our golf blog with tons of great information to make you a better more knowledgeable golfer. See it at <https://www.quickfixgolf.com/pages/quickfix-golf-blog>

Well then, let's get started!

## First Step: Get Familiar with the Members Only Clubhouse

The screenshot shows a web browser window displaying the 'Members Only Clubhouse' page on the Quick Fix Golf website. The browser's address bar shows the URL [quickfixgolf.com/pages/members-only-club-house](https://www.quickfixgolf.com/pages/members-only-club-house). The website's navigation menu includes: ABOUT, FREE "QUICK FIX", ONLINE LESSONS, LOCAL LESSONS, MEMBERS ONLY MENU, and PRO SHOP. The main content area features a large banner image of a clubhouse interior with the text "Welcome! Member's Only Clubhouse". Below the banner, there is a text block titled "Welcome to your Game Improvement Club" and a video player showing a golf swing analysis of Dustin Johnson.

This is our 19<sup>th</sup> hole of sorts. Any comments and new features will be posted here. You also have the link to our 19<sup>th</sup> hole get together on Wednesday nights.

## Next Step: Read Your Lesson Action Manual.

Having an overall understanding of where we're going is important. You will get a lot more out of your membership if you **read the lesson manual first!** Our action lesson manual is not a book on our theory of how the golf club should be swung. It is an explanation of the cause and effect in the golf swing. You performed swing motion "A" so you received ball flight "B"

Our challenge is to find the root cause of the improper swing motion or path. The video analysis will help us in this effort.

### **Next Step: Read Through Some of the Special Reports.**

The Special Reports Section is available to enhance your knowledge of the game of golf and golf equipment. Take advantage of reports like ***"How to Take Your Golf Swing from the Driving Range to the Golf Course."*** There is a lot more to golf than just your golf swing faults. Read the report on golf shafts called, ***"Does the Shaft Really Matter"***. Once you read this report you will know more about what a golf shaft does and what shaft you should have, than many golf pros.

We will be adding new reports as fast as we can. [The Blog](#) is also an excellent source of information and updated more frequently. Please let us know of any topics you would like to have addressed. [quickservice@quickfixgolf.com](mailto:quickservice@quickfixgolf.com)

### **Next Step: Online Reservations System**

The direct link is <http://www.quickfixgolf.com/pages/reservations> Save it in your favorites! You can always get to the online reservations system by way of the drop-down menu under local lessons and in the members only section under the drop-down and on the Clubhouse page third section to the right.

**Booking Lessons** - Please make sure to login first, so the system knows NOT to charge you for a workshop lesson or any private lessons you already purchased. Your lesson package is entered in the reservations system under your email and password.

**DO NOT register at the online reservations system, just login with the user name and password assigned to you!** If you register you will create an additional account that will NOT have your lessons attached.

Right now, the Online Reservation System is primarily only for the local members in the Central Virginia and the Myrtle Beach area or visitors coming to see us locally. Soon the system will be set up to handle members out of state that wish to purchase personal online lessons live over [gotomeeting.com](http://gotomeeting.com).

## **Next Step: International Webinars and On-line Lessons**

We will be offering “Webinars” or “Online Meetings” that will serve as an opportunity for members to speak directly to the pros and ask questions on Wednesday nights 8 pm eastern. On occasion, we have leaders in the golf industry as Special Guests. The Wednesday night get togethers will greatly increase your knowledge of the game and give you the opportunity to ask questions and hear questions from other golfers just like yourself.

This is an open house for the club house so feel free to invite your friends to join us. It is an excellent opportunity to introduce someone new to the club. Ask about our new “Hook a Friend on Golf” program, (something you will hear more about soon).

The Wednesday night meetings are also a great support plan for golfers who travel often. Stay in touch right from your hotel room or office. Feel free to email questions to [quickservice@quickfixgolf.com](mailto:quickservice@quickfixgolf.com) or ask questions during our webinars. To sign up for your golf webinars/class go to [Wednesday Night Get Togethers](#)

The above-mentioned offer is NOT the same as an online class. We are in the process of building online classes that members can take live online or review later once posted. Topics will be beginning with the most basic topic to advanced enough for scratch golfers.

## **Next Step: Workshop Lessons**

If you live in and or expect to travel to the Myrtle Beach area, you should take advantage of attending the workshop lessons live. Most of the programs we offer include Workshop Lessons for a **specified period**, where you may attend as many workshops as you wish at no extra charge.

Once that time period expires, you may enroll in one of the [online memberships for as little as \\$79 a year or \\$19 per month for the UNLIMITED analysis online or \\$29 per month for the LIVE lesson online as well as UNLIMITED analysis online.](#)

You will find the schedule for the Workshop Lessons at the **Online Reservations System**, available through your Club House page or on the reservations system itself in the general product description area. You may save the online reservation system URL in your favorites to avoid going back to the member’s only section again. <https://www.quickfixgolf.com/pages/reservations>

**You will need to book your Workshop/Monitored Practice Lesson reservation!** In many cases the number of student positions available is limited.

Some Workshop/Monitored Practice Lessons are videotaped and posted in the Archive of Past Workshops section for all our members.

**What is the Workshop/Monitored Practice Lesson format?** – Workshop lessons are different in topic one to the other. **Again, please make sure you make a reservation** being that this year's attendance will be strictly limited to the individuals booked. If you show up without booking and there is room no problem, join us. **However, if the class is full, my apologies but we're going to stick to the proper number of individuals, so everyone gets the proper attention the topic requires.** Classes may be limited to as little as eight students and some may be as many as twelve. The number of positions open for the class will be listed of course before you book it.

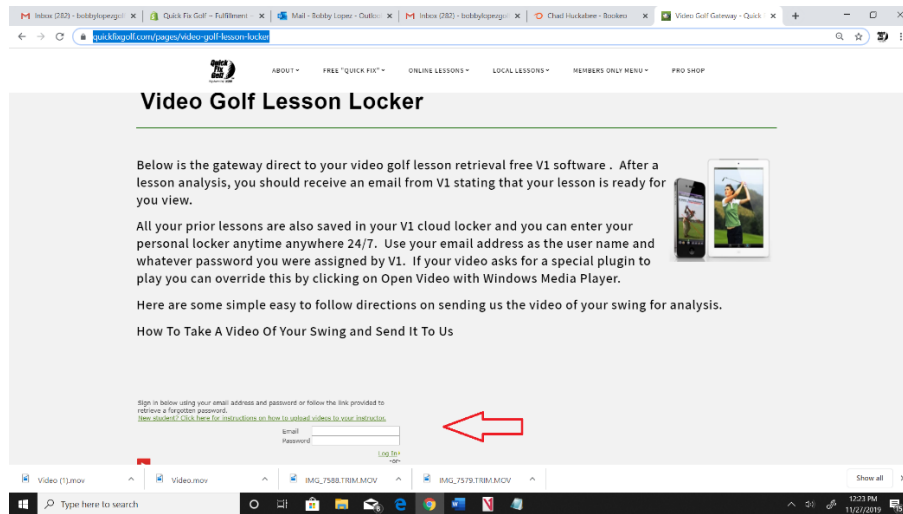

First thing to do is to purchase any driving range balls you wish, (*the range offers discount cards and a discount on a single basket when you mention Quick Fix Golf*) and find a hitting position that is open. Place your basket on the mat or hitting area and your golf clubs in front of the mat.

### **UNLIMITED Video Analysis over the Internet**

Another benefit to the Unlimited Video Analysis Online Program is the ability to send through e-mail, (or [upload on to our site](#) or [upload through the V1 system](#) as many videos you wish for analysis for as long as you're a member. For instructions on how to send a video by email go to [Instructions for sending your video](#) Please be careful to use the same email consistently or it will cause the V1 system to open another locker for your videos. It is better to keep all your videos in one place or locker for retrieval at your convenience.

[To retrieve your past videos, just go here.](#) login into your locker, (user your email address and password is password. You should change your password once you get in). All your prior lessons should be there with dates held so you can compare your improvement over time. (picture below)

For even better ease of use download the V1 app from the app store or at <https://secure.v1golfacademy.com/default.asp> It's FREE!

## In Closing

Remember to check back to your Member's Only Clubhouse often for news.

Another way to keep up with news about Quick Fix Golf is through our Wednesday Night Get Togethers 8 pm eastern. [Login to join us here.](#)

Hoping to have a positive influence on your enjoyment of the game from myself and the entire family of Golf Teaching Professionals in the Quick Fix Golf Network.
