Navigation

Access the Term Checklist page, 2023 Calendar, Templates, plus month and week pages, from any page.

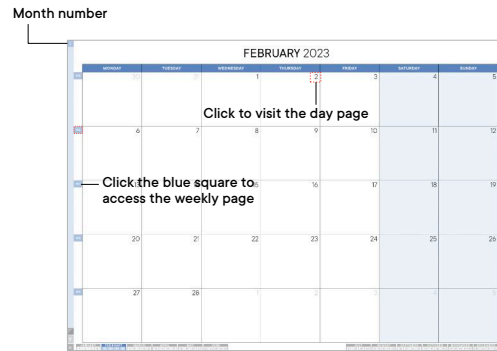

Calendar

Weeks and days are clickable links.

Template Pages

These pages may be freely copied and pasted anywhere throughout the planner. Should you need extra pages in a particular section, it's much preferable to source them from here; copying and pasting from anywhere else will also duplicate the navigation system for that page, and you might find things get rather mixed up.

Month Pages

Each month page is linked to 5 weekly pages, accessible via the blue rectangle to the left of each week on the month grid. A week is considered part of a particular month if it contains four or more days belonging to that month.

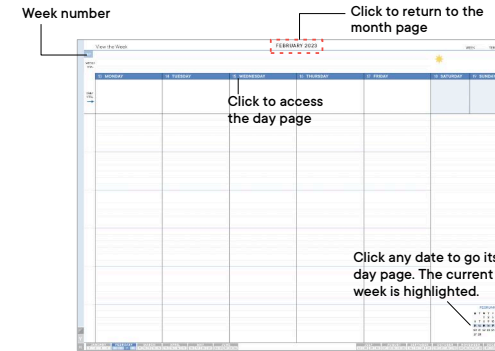

Clicking on a specific date will take you to the page associated with that day.

Month pages can be accessed at any time by clicking the month name at the top of each week and week notes page, or in the small index on the bottom edge of each page.

Communication and Student Pages

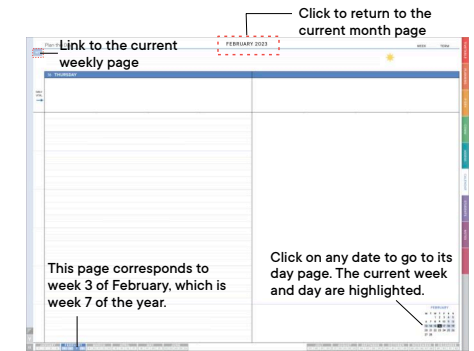

Student profiles are always one click away as you keep track of conversations, meetings, and other communication with students and parents. Similarly, communication notes are accessible right from each student's profile page.

Week Pages

Each 7-day weekly spread has corresponding day pages that can be accessed by clicking the day/date at the top of each day column.

The small month calendar on the bottom right provides handy navigation to each day of that month. Where a week spans two calendar months, both will appear in this space.

Day Pages

Any day of the current month may be accessed by clicking on its date in the small calendar, on the lower right.

Navigate back to the week that day belongs to by clicking on the small blue numbered rectangle; top left.
