## *“The Elegant Way Of Pet Friendly Living”*

It all started out of necessity, as many good things do..

As our precious girl Piti got pregnant and gave birth to four wonderful kittens, we urge to create some more space for the new family members. It was quite disturbing to try to fit in a limited urban living.

So, we have decided to create our own pet friendly line, that will enable us to share our space equally with our beloved paws. Not only we wanted this line to be smart and efficient, but also, we wanted our furniture to be unique and elegant.

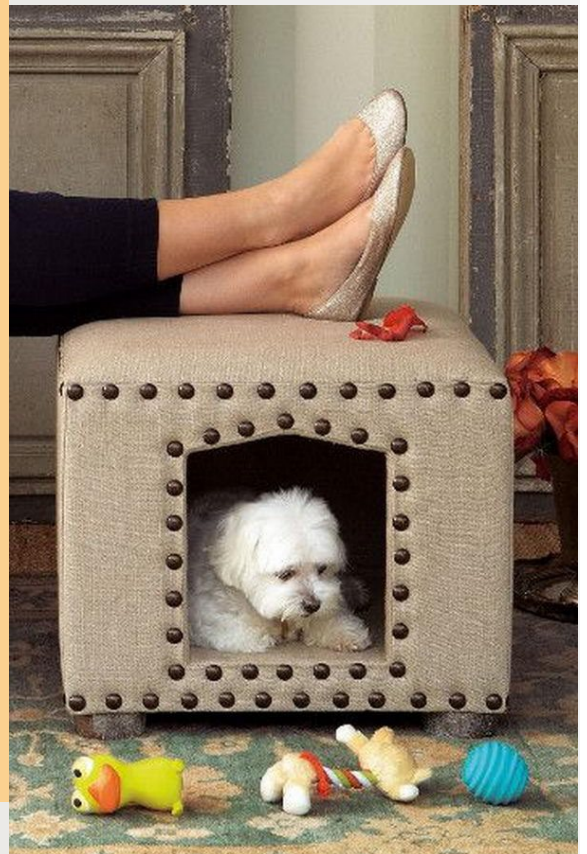

After all, we have decided to share our line with like-minded pet lovers.

Our entire collection is suitable for all cats and dogs up to 22lbs or 10kg.

Hope you enjoy as much as we do.

*All the best.*
