

Pad Mount Enclosure, 2 Doors,
48"x71"x46"

By Hubbell Power Systems
Catalog # [NE722000WD1](#)

Hubbell Shelters can be used in a myriad of pad-mounted equipment applications. Whether they're completely outfitted as a sectionalizing cabinet or housing switchgear, fused-gear, transformers, metering equipment, pumps or other equipment, they stand ready to protect and secure your valuable infrastructure. Hubbell Shelters are also designed for convenient access if any equipment outage occurs.

Features

- Recognized as an American National Standard (ANSI)
- Shelter construction is of fiberglass, resulting in superior impact resistance
- Marine-grade UV stabilized gel coat finish ensures best-in-class protection from natural elements as well as harsh chemical environments.
