BUY A MOTION 2 AND GET A MIKRO 5X FOR **\$10,000!**

ceramill® motion 2

ceramill® mikro 5X

Save more than **\$26,290** including materials at no charge

Includes:

- Ceramill Motion 2 S,
- Ceramill Mikro 5X S,
- Ceramill Match 2-CAM-Dongle,
- Ceramill CAD/CAM System PC Set,
- Ceramill Coolstream Tank,
- 2 x Silent Compact CAM suction unit (Renfert),
- Workpiece Holder Glass Ceramic Blanks,
- 2 x AG Care Motion Basic,
- 2 x Protection Plan Match 2,
- 1 x AG Starter Material Kit.

SAVE ON AMANN GIRRBACH'S CERAMILL MAP 600 BUNDLE

Bundle with a Premium PC Set starting at **\$28,890**

Includes:

- Ceramill Map 600
- Ceramill Mind
- Protection Plan Mind
- Premium PC Set
- 1 x Impression holder
- 1 x Universal Plate with Fixation Pin
- 1 x M-Die Map
- 1 x All-In Scan

Save over
\$8,750

Ceramill Map 200+
bundle for
\$15,990

CERAMILL MAP 200+

AMANN GIRRBACH

The entry-level scanner - compact, precise, fast

- Maximum precision at minimum footprint
- Reduced scanning time by up to 50 %
- Open interface and automatic user guide
- Versatile use (e.g. Impression Scan Triple Tray, Models, Multi Die, Colour Texture Scans)
- Universal-carrier plate allows flexible scanning of numerous different model systems

A bundle includes: Ceramill Map 200+, Ceramill Mind, Ceramill CAD/CAM Standard System PC Set, Protection Plan Mind (Year 1), 1 x Software Module (of your choice), 1 x Impression Holder Map 200, 1 x Universal Model Plate, Free Training in Charlotte, NC

D2000 **core3d** **3SHAPE** centres®

All-in-one scanning for maximum throughput

- All-in-One scanning of triple-tray impressions
- Optimized processing speed: die scan: 15 sec; full arch scan: 20 sec
- No need for separate die scan
- Room for 2 models
- Color texture scanning/ Impression scanning
- Precise capture of the bite & the model's position in the articulator
- Works with any articulator

Save over
\$5,000

Trade-in
available

D1000 **core3d** **3SHAPE** centres®

Ultra-high productivity scanner

- 4 x 5 MP cameras, Blue LED Multi-line
- Accuracy: 5 µm / 8 µm
- Die scan time: 15 sec
- Full arch scan time: 20 sec
- Color texture scanning
- No need for separate die scan
- Impression scanning

DENTAL EXTRACTION UNITS

SILENT COMPACT CAM

RENFERT

Compact, dustbag-free suction for use with compact, dental CAM units

- Bi-directional communication between extraction unit and CAM unit
- No follow-up costs due to bag-free dust collection
- Uninterrupted workflow due to easy motor change within minutes
- Low operating noise of max. 56,9 dB(A)

\$1,049

SILENT POWERCAM EC **NEW!**

RENFERT

Powerful, dustbag-free suction with automatic filter cleaning and EC motor technology for heavily used cam units

- Low operating noise of max. 54.3 dB(A)
- Safe production process through low-maintenance EC motor technology (> 5 000 operating hours)
- High suction power of 38 m/s
- Safe disposal of fine milling dust with the help of a disposal bag

Save \$458

MILLING MACHINES

Motion 2 bundle for \$49,995

CERAMILL MOTION 2 **AMANN GIRRBACH** **5-Axis, dry & wet milling / grinding / carving**

Save over \$16,735

- High-performance milling, grinding, carving due to DNA strategies
- Maximum range of materials and indications due to 5-axis wet and dry processing in one unit
- Maximum value creation (e.g. rotational milling of titanium, processing of full dentures)
- Optimum protection of all electronic components during wet operation

A bundle includes: Ceramill Motion 2 S, Ceramill Match 2 Cam-Dongle, Ceramill CAD/CAM System PC Set, Ceramill Coolstream Tank, Silent Compact CAM suction unit (Renfert), Workpiece Holder Glass Ceramic Blanks, AG Care Motion Basic, Protection Plan Match 2, 1 x AG Material Kit, a \$6,000 credit towards an additional AG product*

CERAMILL MIKRO IC **AMANN GIRRBACH** **4-axis wet grinding unit for max processing speed**

- High-performance processing due to DNA milling/grinding strategies
- Reduced processing time of single blocks by up to 60%
- Highest degree of precision with maximum feed rates
- Easy handling and accuracy when processing hard materials

Save over \$4,170

Micro IC bundle for \$34,500

A bundle includes: Ceramill Mikro IC, Ceramill Match 2 Cam-Dongle, Ceramill CAD/CAM System PC Set, Grinding Universal Holder, Protection Plan Match 2 M1

CERAMILL MIKRO 5X **AMANN GIRRBACH** **5-axis technology concentrated in minimum space**

- High performance due to DNA milling strategies
- Maximum range of indications in 5-axis dry milling
- Space-saving, compact design
- High precision and durability

Save on a bundle over **\$10,910** including materials at no charge & a \$4,000 credit towards an additional AG product *

Buy two Mikro 5x, and save over **\$28,700** including materials at no charge

SINTERING FURNACES

CERAMILL THERM 3

AMANN GIRRBACH

Fully automatic high-performance furnace for final sintering of distortion-free zirconia frameworks

- 250 sintering program positions
- 3 stackable sintering bowls for maximum utilisation of the furnace
- Sintering at the press of a button – very easy operation with touch-screen technology
- USB interface for program updates and log files for monitoring firing

\$8,999

CERAMILL ARGOTHERM 2

AMANN GIRRBACH

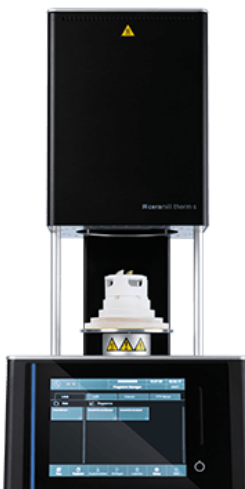

Shielding gas sinter furnace and flood chamber for Ceramill Sintron

- Sintering program developed specifically for Ceramill Sintron
- A validated system guarantees consistent high quality of the results
- Active cooling after the sintering process
- Minimal consumption of protective gas
- Sintering at the push of a button – extremely easy operation with touch screen technology
- USB interface for program updates and log files for monitoring firing

**Argotherm 2
bundle for
\$7,990**

A bundle includes: Ceramill Argotherm 2, 5 x Ceramill Sintron blanks 14 mm

CERAMILL THERM S

AMANN GIRRBACH

**Save over
\$3,835**

Speed furnace for greater flexibility in everyday lab routines

- More flexibility in everyday laboratory routines with a 2-hour speed sintering program for single tooth restorations
- Greatest possible user versatility through Autodry® drying function, sintering mode for up to 6-pontic restorations and glaze firing mode
- Easy handling via 10.4" touch display and Internet connection for programmes and protocols

A bundle includes: Ceramill Therm S,
15 x Ceramill Zolid FX Multilayer (any shade/16mm)

**Therm S
bundle for
\$10,990**

SINTERING FURNACES

LHT 01/17 LB & LHT 02/17 LB SPEED NABERTHERM

High-Temperature Bottom Loading Furnaces with Speed Cooling System for Sintering of Translucent Zirconia

- Maximum temperature of 1650 °C
- Additionally equipped with a drying as well as a forced cooling function
- For accelerated cooling, the furnace is automatically opened step by step under program control
- Can achieve total cycle times of less than two and a half hours
- Individual programming for all recommended sintering curves of all zirconia manufacturers

LHT 01/17 LB Speed Space for up to two batch containers for max. 15 single crowns per level

\$9,750

LHT 02/17 LB Speed Space for up to three saggars for max. 25 individual crowns per level

\$10,995

LHT 01/17 D NABERTHERM

High-temperature furnace ideally suited for sintering bridges and crowns made of translucent zirconia

- Excellent price-performance ratio
- Special heating elements made of molybdenum disilicide provide the best possible protection against chemical interaction between the charge and the furnace components
- Individual programmed for all recommended sintering curves by almost all zirconium manufacturers
- Can be charged with up to two saggars, 15 individual crowns per level

\$7,295

Call to order: 813.888.8889

PORCELAIN FURNACES

PRO 200 WHIP MIX

- Advanced cycles for e.max®, In Ceram®, Wol-Ceram®, Captek™, sintered alloys and advanced porcelain products
- Quick-Cool Jet cools the muffle twice as fast
- The graph-based application enables user to create, modify, print and transfer programs to furnaces straight from their PC

\$3,899

PRO PRESS 200 WHIP MIX

- Presses all of the pressable ceramics available
- Fires every dental porcelain on the market using advanced cycles for IPS e.max®, In Ceram®, Wol-Ceram®, Captek™ sintered alloys and advanced porcelain products
- 200 open programs, 1 and 2-stage firing
- Patented Quick-Cool Jet cools the muffle twice as fast
- USB port enables user to transfer programs, upgrades with the included Flash Drive

\$4,995

PRO PRESS SP WHIP MIX

- Automatically monitors the flow of the glass and senses the movement of the ceramic into the ring in real time and dramatically increases the likelihood of a complete press, even with cracked molds
- Enables successful pressing of more units per ring while minimizing or eliminating the reaction layer

\$6,725

FIRELITE WHIP MIX

- Up to 50 firing programs you can customize for any type of porcelain
- Two-point calibration ensures firing accuracy for low- and high-fusing porcelains
- Fast-cool cycle uses vacuum to cool the muffle, reducing down time between firing cycles
- Large elevated cooling tray allows for easy staging of work and quickly cools just fired restorations

\$3,425

BURNOUT OVENS

JELRUS INFINITY WHIP MIX

- Can be used for a 1, 2, 3 or 4-stage burnout procedure
- Memory for 1-30 “open” easy to use programs
- Can heat up, cool down and has a “Ready-Set-Go” smart overnight timer
- Offers the highest accuracy with even heat distribution

INFINITY Medium 30 \$1,499

INFINITY Large 30 \$1,599

3D PRINTER

MOONRAY S100

SPRINRAY

MoonRay is an all-in-one digital dentistry system

The MoonRay S is a wireless, desktop DLP 3D printer that excels at printing large parts while maintaining precise detail.

- Fully integrated features produce high-resolution dental models from intraoral or other 3D scans.
- Work process can be streamlined with the fast DLP technology and custom built-in projector for optimal 3D printing.
- The ultra-durable resin tank means you won't be replacing your tank every few prints, maximizing uptime with minimal maintenance.
- Enables quick and easy printing of accurate crowns, copings, surgical guides and other dental models.

\$3,750

Model	Print Volume	Min. feature size	Print Speed
MoonRay S100	13 x 8 x 20 cm	100 Microns	1 in/hour - 100 Microns 0.5 in/hour - 50 Microns 0.15 in/hour - 20 Microns

Call to order: 813.888.8889

WAXING

SMARTWAX DUO AMANN GIRRIBACH

- Two different handpieces are ready for use at the same time
- 3 individually programmable temperatures for each handpiece
- Simple and safe exchange mechanism of the modeling tips
- Fast operational and heated instruments
- Anti-twist cables that are insensitive to heat

\$375

NOFLAME PLUS BUNSEN BURNER AMANN GIRRIBACH

- Mobile and immediately operational, no gas required
- Handling as usual, no adjustment required
- Eliminates the risks of getting burned or causing fire
- Clean, i.e. no soot particles on instrument and/or material
- Saves 75% of energy expenses; saves the environment

\$355

HEAT ZONE INDUCTION HEATER WHIP MIX

- Heats wax modeling tools without flame using an electromagnetic induction process and is sensor activated when a tool is inserted into the "zone"
- Heats the tool safely and extremely fast
- The induction form of heating ensures complete safety for non-metallic items such as fingers and clothing eliminating the potential for burns or fire.

\$349

WAXLECTRIC II 120 V RENFERT An electric wax knife

- Can be operated with two handpieces simultaneously.
- Temperature setting to a precise degree ensures controlled working processes.
- Direct access of preferred working temperatures using the programming function.
- Fast heat-up rate and low heat transfer to the handle thanks to the heating element integrated in the tip.

\$289

MODEL AND DIE

SMARTMIX X2
AMANN GIRRBACH
The universal vacuum-mixing machine

Quick and easy programming of the duration, speed, direction of rotation, interval times, pre-mixing, pre-vacuum, post-vacuum for homogeneous and consistent, reproducible mixtures with optimum parameters.

\$1,649

SMARTBOX[®] X2 programmable dispensing unit
AMANN GIRRBACH

- Measures the water-to-powder ratio of plaster products in precise grams to milliliters
- Ensures a consistent high degree of dosage precision which allows to save 20 to 25% of time, material and plaster
- The plaster is sprinkled very finely into the mixing beaker, which noticeably increases the homogeneity of the mixture.

\$2,525

GIROFORM[®] pin drill
AMANN GIRRBACH

The pin drill allows precise, fast and safe determination of the desired drill position. Drilling starts at the press of a button. The plate holder is fastened magnetically, securing the drill position.

\$2,195

VPM2 VACUUM MIXING UNIT
WHIP MIX

- Vacuum mixing all types of gypsums, plasters and investments
- Up to 30 separate programs
- Can be programmed for time, speed and paddle direction.

\$2,199

AQUASPENSE & AQUASPENSE SL
WHIP MIX

Programmable for up to 15 various gypsums, AquaSpense liquid dispenser ensures proper water powder ratio's by automatically calculating the powder weight and then accurately dispensing the correct amount of water for optimal product performance and results. The key difference in the two units is that the SL is capable of accurately dispensing two different liquids - water and special liquid for your investing needs.
