

I CAN

UNLEASH YOUR CREATIVITY

As accessories such as microphones and lights become smaller, **VEO Creative Tripod Accessories** are designed to turn your tripod into a studio, and allow you to unleash your creativity. With a range of clamps, tripod support arms and cold shoe mounts, you can attach all the accessories that you need for that perfect shot with ease.

① VEO CSM

Simple cold shoe mount

② VEO CSM DLX

Cold shoe mount with adjustable head

More Info:

③ VEO CSMM2

2x cold shoe multi-mount that expands

④ VEO CSMM3

3x cold shoe multi-mount

⑤ VEO CP

Clamps to fit any flat or round surface

⑥ VEO TC M

Tablet connector for up to 12" tablets

⑦ VEO SPH

Arca compatible Smartphone holder

⑧ VEO TSA DLX M/L

Deluxe tripod support arms (medium or large)

⑨ VEO TSA S/M

Simple tripod support arm (small or medium)

⑩ VEO PA-10

Simple smartphone clamp with Bluetooth remote control

⑪ QS-72T

Arca compatible quick release plate with smartphone holder

THE
**VEO 3T TRAVEL
 TRIPOD SERIES**
 IS THE PERFECT
 PARTNER FOR
 VANGUARD'S
**VEO CREATIVE
 TRIPOD
 ACCESSORIES**

2.2-3 in
 55-85mm

Each ball head includes a long Arca compatible **QS-72T** quick release plate that can be used for cameras or smartphones. In addition, there is a 1/4" thread hole on the side that can be used to attach a **VEO TSA**, and on the top is a cold shoe to attach a **VEO CSM**.

Each ball head includes a pan-handle that can be attached to offer more control in framing a shot, or following a moving subject.

On the central column canopy are two 3/8" threads for support arms such as the **VEO TSA DLX**. These 3/8" threads are flanked by bayonet slots that ensures that the **VEO TSA DLX** can't move in use.

A Bluetooth remote control can be used to trigger the image or video on any IOS or Android smartphone, without the need to touch it.

Each tripod includes a leg that can be removed and attached to the base of the central column to create a monopod in seconds.

The VEO 3T Series includes a low angle adaptor that combines with three easy set leg angles for low angle or macro shots (or simply reverse the central column)

More Info:

With models that can fold down to 41cm/16 inches and weigh as little as 1375g/3lbs, these are incredibly portable travel tripods.

Despite this portability, they can hold up to 12kg/26lbs on an incredibly stable base, thanks to the quality of materials and precision engineering Vanguard's CNC machines can deliver, and they can extend up to 166cm/65inches, making them ideal for even the tallest photographer.

While any tripod with 1/4" or 3/8" threads in the central column canopy can hold a tripod support arm (or any tripod when using the VEO CP Clamps), the host of features offered by the VEO 3T make it perfect for photographers and smartphonographers in the studio, or on the go.

Also includes: Aluminium/Carbon Models | 20/23/26mm Leg Diameters | Tripod Bag | Spiked/Rubber Feet
